Subject: Amendment to Non-Custody Intake Program Agreement with Tulare

County Probation for FY 2016-17 (DP)

RECOMMENDATION

Council approve the Amendment to Non-Custody Intake Program with Tulare County Probation for fiscal year 2017-18 and authorize the City Manager or designee to execute the agreement.

EXECUTIVE SUMMARY

The Dinuba Police Department and the Tulare County Probation Department initiated a partnership and mutual agreement for the Thunderbolt Program in July of 1998. Since 2001, the program agreement has provided for two days per week service by a probation officer. The program has since changed its name to Non-Custody Intake Program. The proposed amendment extends the agreement for one additional year through June 30, 2018.

OUTSTANDING ISSUES

None.

DISCUSSION

The Non-Custody Intake Program provides an alternative for the youth of the community by offering informal probation for first-time offenders instead of charging them with a formal criminal record. The estimated cost of the program for fiscal year 2017-18 is \$15,546.00. The Police Department's fiscal year 2017-18 budget reflects a yearly allocation of \$15,600.00 to assist in the costs associated with the officer's salary, benefits, and transportation in connection with the program.

The initial agreement was executed in July 19, 2016 and terminates on June 30, 2017 unless extended. A copy of the original agreement is enclosed as Attachment 'A'. The amendment enclosed as Attachment 'B' extends the agreement for one additional year through June 30, 2018. All other terms and conditions remain the same.

FISCAL IMPACT

Staff included \$15,546.00 in FY 2017-18 Proposed Budget for the program.

EXECUTIVE SUMMARY

The City of Dinuba and the Dinuba Unified School District have been in partnership under a formal School Resource Officer (SRO) agreement since 1999. This agreement provides for two School Resource Officers. One officer is assigned to the Dinuba High School campus on a shared basis with Sierra Vista campus, and one officer is assigned to the Washington Intermediate School campus on a shared basis with JFK Academy. The SRO program provides for police presence on campus and police services in the areas of crime prevention intervention/enforcement, teaching and counseling.

OUTSTANDING ISSUES

DISCUSSION

The SRO partnership with the school district has improved the on-campus environment for safety, and behavior, attendance and grades of students. The school district is supportive in continuing this agreement with the City. Minor adjustments have been made in the financial sections of the agreement to reflect the increase in salary and benefits of the officers.

The agreement provides that the City and the District agree to share in the costs, salary, benefits, vehicle maintenance, training and estimated overtime of the two (2) SRO officers with each entity paying 50% of these expenditures. The cost for the 2017-18 school year will be \$157,616 per assigned officer for the one-year period of this agreement totaling \$315,232. The school district agrees to reimburse the City, billed on a quarterly basis over the 2017-18 school year for a total of \$157,616.

A copy of the agreement is enclosed herein as Attachment 'A'.

City Council Staff Report

Department: CITY MANAGER'S OFFICE June 13, 2017

To: Mayor and City Council

From: Daniel James, IT/Records Manager

Subject: Resolution No. 2017-29 Authorizing Application for Environmental

Enhancement and Mitigation Program Grant (DJ)

RECOMMENDATION

Council adopt Resolution No. 2017-29 authorizing staff to apply for the 2017 Environmental Enhancement and Mitigation Program (EEMP) Grant in the amount of \$500,000, for the installation of landscape in medians on S. Alta Ave. and W. El Monte Way.

EXECUTIVE SUMMARY

The City of Dinuba is proposing to submit a grant application in the amount of \$500,000 through the state's Environmental Enhancement and Mitigation Program to fund the installation of landscaping and other features in the raised medians on S. Alta Avenue and W. El Monte Way. A resolution adopted by the City Council authorizing the submittal of the application is required by the EEMP. The application deadline is June 21, 2017.

OUTSTANDING ISSUES

None.

DISCUSSION

The state is soliciting applications for grant funds through the Environmental Enhancement and Mitigation Program (EEMP). The purpose of the EEMP is to provide grant funds to local, state and federal agencies for projects that enhance and mitigate the environmental impacts of modified or newly constructed public transportation facilities. The application deadline is June 21, 2017.

Staff has evaluated the EEMP and determined that the raised medians constructed as part of the recent widening of S. Alta Avenue and W. El Monte Way provide

an opportunity to add plants, trees, decorative rocks, and other material that would enhance the aesthetics of these major roadways as well as mitigate environmental effects. The existing raised medians have stamped concrete with no landscaping.

As part of the grant application, staff has developed conceptual designs and cost estimates of the subject areas, and has determined that the City meets the application criteria of the grant. The City will submit an application for \$500,000 in EEMP grant funds for median landscape project. If the project is funded, staff will present a final landscape plan to the Council for review and approval.

Resolution No. 2017-29 (Attachment 'A') authorizes the City Manager or his designee to submit an application for the funding, execute the associated contract, and perform any action necessary for the successful implementation of the described project.

FISCAL IMPACT

Matching funds are not required for EEM program grants. However, applications that include other sources of direct and indirect funds for the proposed project are considered to be more competitive. Therefore, staff included in-kind staff time as part of the grant application.

Subject: Authorization to Purchase New Transit Bus (BB)

RECOMMENDATION

Council authorize the purchase of a new CNG Ford E-450 transit bus using Federal Transportation Administration (FTA) Grant Funds in the amount of \$119,707.

EXECUTIVE SUMMARY

The City was awarded \$138,800 in grant funds by the Federal Transportation Administration for the purchase of one new transit bus. This new bus will replace an existing bus that is 10 years old and has exceeded it's useful life. Staff will purchase the bus using the CalACT/MBTA Purchasing Cooperative which streamlines the procurement process for member agencies. The cost of the new bus is \$119,707.

OUTSTANDING ISSUES

None.

DISCUSSION

The City of Dinuba operates the Dinuba Area Regional Transit (DART). DART offers four fixed routes and a dial-a-ride service to destinations such as commercial centers, medical facilities and educational campuses. Each year the DART provides between 130,000 and 150,000 rides to Dinuba residents and to residents in nearby communities. A total of 9 buses are used to provide transit services. All buses are owned and maintained by the City.

Staff continuously evaluates its fleet of buses with a goal of replacing older buses as funds are available. Staff determined that one of the existing buses is in need of replacement. The bus is 10 years old with over 250,000 miles. When buses exceed

their useful life they become unreliable and expensive to maintain.

The City successfully applied for and was awarded a \$138,800 grant from the Federal Transportation Administration (FTA) Section 5339 Grant Program to purchase a new transit bus. As with the purchase of previous buses, the City will use the California Transportation (CalACT) Morongo Basin Transit Authority Purchasing Cooperative. The CalACT Cooperative satisfies all federal and state procurement requirements which streamlines the procurement process for member agencies. Without this Cooperative, the City would have to prepare a request for proposals (RFP), develop bid specifications, and work with the state on submitting all of the required reimbursement documents. The CalACT Cooperative has completed all these requirements and the purchase can be finalized much faster.

In consultation with City's transit service contractor, MV Transportation, staff determined that the best replacement bus is a 2017 CNG Ford E-450. The competitively bid price for this bus is \$119,707 (See Attachment 'A'). The bus is 25 ft. long with a seating capacity of 16 passengers plus 2 wheelchairs (See Attachment 'B').

If approved, delivery of the new bus will take between 8-10 months from the date ordered.

FISCAL IMPACT

The FTA Grant Program requires a local match of 15%. The total purchase price for the new bus is \$119,707. The grant will cover \$101,751 and the City will provide a local match of \$17,956 using transit operating funds.

Subject: Authorization to Purchase Recycling Containers with Grant Funds (BB)

RECOMMENDATION

Council authorize the purchase of recycling containers from various vendors totaling \$58,999 using funds from the 2016-2017 Beverage Container Recycling Grant Program.

EXECUTIVE SUMMARY

The City of Dinuba was awarded \$60,000 to acquire a variety of recycling containers through the 2016-2017 Beverage Container Recycling Grant Program. These containers will be distributed and used at multi-family complexes, hotels/motels, parks and recreational facilities and in downtown Dinuba. The City will acquire these containers from several vendors for a combined purchase price of \$58,999.

OUTSTANDING ISSUES

None.

DISCUSSION

The State of California enacted the Mandatory Commercial Recycling Law (AB 341) as a way to reduce GHG emissions by diverting commercial solid waste to recycling efforts and to expand the opportunity for additional recycling services and recycling manufacturing facilities in California.

Under the law, a business (includes public entities) that generates four cubic yards or more of commercial solid waste per week or is a multifamily residential dwelling of five units or more shall arrange for recycling services. The goal is to diver no less than 75 percent of solid waste generated be source reduced, recycled, or composted by the year 2020.

In an effort to help business and the City meet the diversion goals, staff applied for and was awarded a \$60,000 grant to purchase recycling containers through California's 2016-17 Beverage Container Recycling Grant Program. The City intends to use grant funds to purchase the following containers:

- 3 gallon containers for hotels/motels
- 5 gallon triangle top containers for downtown
- 7 gallon containers for multi-family dwelling units
- 45 gallon containers for parks and recreational facilities

Staff obtained quotes for all of these containers and based on the responses, it is most cost effective to award the purchase of these containers to various vendors. The vendors that provided the lowest cost per container type are listed below:

Vendor	Container	Units	Unit Price	Total
	Size			
Home Depot	3 gallon	750	\$3.65	\$2,734.20
Home Depot	7 gallon	2000	4.28	9,287.60
Eco-Pop	5 gallon	60	504.83	30,289.50
Design				
Webrestaurant	45 gallon	25	667.49	16,687.17
			Grand Total	58,999.00

The sum total of all of these purchases is \$58,999, which includes taxes and shipping. The balance of \$1,001 will be used to fund administrative costs such as distributing containers, submitting grant documents, requesting grant reimbursement, preparing quarterly reports and project close-out. These containers will be distributed and used at multi-family complexes, hotels/motels, parks and recreational facilities and in downtown Dinuba.

FISCAL IMPACT

This entire purchase is grant funded. The scope of work has been reviewed and approved by the State and is all eligible for reimbursement.

Resolution No. 2017-30 Authorizing Submittal of Annual Request for

Subject: Regional Surface Transportation Program (RSTP) Funds for FY 16-17

(BB)

RECOMMENDATION

Council adopt Resolution No. 2017-30 authorizing the Public Works Director to submit a request for annual Regional Surface Transportation Program (RSTP) funds for Fiscal Year 2016-2017 in the estimated amount of \$250,302.

EXECUTIVE SUMMARY

The City of Dinuba receives an annual allocation of Regional Surface Transportation Program (RSTP) funds through the Tulare County Association of Governments (TCAG). In order to receive this money, the City must submit a claim that has been authorized by a City Council Resolution. The amount allocated to the City of Dinuba for FY 16-17 is estimated at \$250,302. RSTP money is an important operating funding source that is typically used on the maintenance and repair of streets, signs, pavement markings and traffic signals.

OUTSTANDING ISSUES

None.

DISCUSSION

The Surface Transportation Program (STP) was established by the 1991 Federal Intermodal Surface Transportation Efficiency Act (ISTEA) and continued with passage of the Transportation Equity Act for the 21st Century (TEA-21) and the TEA-21 Restoration Act of 1998. This legislation created the Regional Surface Transportation Program (RSTP). Pursuant to Federal regulations, most of the RSTP designated for California is obligated to projects located within 11 urbanized areas.

However, a small percentage is apportioned to Metropolitan Planning Organizations (MPO). The MPO in Tulare County is the Tulare County Association of Governments (TCAG). TCAG receives approximately \$2.5 million dollars annually for this program and subsequently distributes the funds to TCAG member jurisdictions using a population-based formula.

RSTP provides a source of funds to preserve and improve transportation systems. The funds may be utilized on any Federal-aid highway, including the National Highway System (NHS), bridge projects on any public road, transit capital projects, and intracity and intercity bus terminals and facilities. In Tulare County, these funds have been primarily used for street and highway construction, reconstruction, rehabilitation, resurfacing, and operational improvements.

The estimated allocation for the City of Dinuba for FY 16-17 is \$250,302. Continuing with past practice, these funds will be deposited into the City's Gas Tax fund and will be used on the maintenance and operation expenditures of the City's Transportation Services Division. Some portion of this money is also used to fund employee salaries, debt service, and capital projects. The adoption of Resolution No. 2017-30 will authorize the Public Works Director to submit the required claim to TCAG for payment of the amount identified above.

FISCAL IMPACT

The \$250,302 allocation pays for a portion of the operating expenses of the City's Transportation Services Division.

A. Resolution No. 2017-30

RESOLUTION NO. 2017-30

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF DINUBA AUTHORIZING THE PUBLIC WORKS DIRECTOR TO FILE A REGIONAL SURFACE TRANSPORTATION PROGRAM (RSTP) EXCHANGE PROGRAM FUND CLAIM FORM FOR FISCAL YEAR 2016-2017

WHEREAS, the Tulare County Association of Governments (TCAG) and the California Department of Transportation (Caltrans) have entered into a Standard Agreement contract to exchange unobligated balances of federal Regional Surface Transportation Program (RSTP) funds with non-federal State Highway Account funds; and

WHEREAS, Caltrans Division of Programming releases a 5-year ESTIMATE of RSTP Exchange Program apportionments for inclusion in the Federal Transportation Improvement Program (FTIP) Programming document every 2-years to California Metropolitan Planning Organizations (MPOs);

WHEREAS, TCAG is the designated MPO for Tulare County;

WHEREAS, the Annual RSTP Exchange Program fund apportionment is an ESTIMATE and subject to change during the fiscal year (2016-2017) due to many Federal Surface Transportation Bill variables including the annual appropriations act as well as other Congressional action (i.e. rescissions);

WHEREAS, a FINAL RSTP Exchange apportionment amount is published at the end of the FY16-17 and can be different than the ESTIMATE RSTP Exchange apportionment figure;

WHEREAS, Annually, Caltrans sends TCAG a Standard Agreement contract that includes an RSTP Exchange Program apportionment figure;

WHEREAS, TCAG applies a RSTP population based distribution formula using current Department of Finance (DOF) population estimates (January 2017) to the RSTP apportionment to determine the amount of RSTP Exchange funds to be distribution to TCAG member jurisdictions;

WHEREAS, the City of Dinuba has an ESTIMATE RSTP Exchange Program fund apportionment amount available to claim in FY16-17 is \$250,302

WHEREAS, payment of the ESTIMATE RSTP Exchange fund claim will be subject to all conditions specified in the fully executed standard contract agreement between TCAG and Caltrans, as well as the TCAG RSTP Exchange Claim form requirements: Projects to be funded with this claim are only those projects that are defined under Sections 133(b) and 133(c) of Title 23, United States Code and Article

XIX of the California State Constitution, implemented in accordance with the requirements of Section 182.6(d)(1) of the Streets and Highways Code.

WHEREAS, if the FINAL RSTP Exchange apportionment figure is higher for FY16-17 than the ESTIMATE RSTP Exchange apportionment figure, Caltrans would have to revise the RSTP Exchange Standard Agreement contract with the higher RSTP figure before TCAG could instruct the Tulare County Auditor Controller's Officer to distribute a greater amount of RSTP Exchange Program funds to member agencies, than identified in this resolution;

WHEREAS, if the FINAL RSTP Exchange apportionment figure is lower for FY16-17 than the ESTIMATE RSTP Exchange apportionment amount, Caltrans does not have to revise the RSTP Exchange contract with the lower amount before TCAG could recalculate the available RSTP Exchange Program funds using the same population-based formula and then instruct the Tulare County Auditor Controller's Officer to distribute the lower FY16-17 FINAL RSTP Exchange Program fund amount to member agencies;

WHEREAS, the City of Dinuba has established special gas tax street improvement fund as a requirement to receive the RSTP Exchange Program funds; and

WHEREAS, it is deemed in the best interest of the City of Dinuba the Public Works Director is authorized to sign the FY16-17 RSTP Exchange Program fund claim form and to submit said claim form to TCAG for processing.

NOW THEREFORE, be it resolved that the Public Works Director of the City of Dinuba is authorized and directed to sign and file the above described FY16-17 RSTP Exchange Program fund claim on behalf of the City of Dinuba in the amount of \$250,302.

- The Planning Commission approved the minutes of the May 2, 2017 Planning Commission Meeting.
- The Planning Commission held a public hearing for Application No. 2017-05, a Tentative Parcel Map to divide a 5.36 acre site into two parcels (Parcel 1 2.22 acres, Parcel 2 3.14 acres), located at 1375 N. Resolution No. 2017-24 Approving Salary Schedules for the Period of July

Subject: 1, 2013 through June 30, 2018 to Comply with CalPERS Regulations and

Audit Findings (MA)

RECOMMENDATION

Council adopt Resolution No. 2017-24 approving salary schedules for the period of July 1, 2013 through June 30, 2018 to comply with CalPERS regulations and audit findings.

EXECUTIVE SUMMARY

The City's salary schedules for the period July 1, 2013 through June 30, 2018 have been amended to meet all the requirements of the Government Code and California Code of Regulations and its contract with the California Public Employees' Retirement System (CalPERS). These amendments are ministerial and do change salary ranges.

OUTSTANDING ISSUES

None.

DISCUSSION

In 2016, CalPERS conducted a routine public agency review of employee salary scheduled for compliance with applicable sections of the California Government Code, California Public Employees' Pension Reform Act of 2013 (PEPRA), California Code of Regulations (CCR) and its contract with CalPERS.

The review identified minor changes to the City's pay schedule. Specifically, the City's pay schedule did not indicate an effective date and referenced other documents to identify pay rates. Additionally, the pay schedule did not include the position title and

pay rate for Financial Services Director.

Staff has corrected all of the salary schedules for the period of July 1, 2013 through June 30, 2018 to meet all of the requirements. By adopting Resolution No. 2017-24 enclosed herein as Attachment 'A', the City will have met CalPERS audit findings.

These amendments are ministerial and do not change approved salary ranges which can only be modified by the Council after meet and confer sessions with recognized bargaining groups.

FISCAL IMPACT

City Council Staff Report

Department: FIRE SERVICES June 13, 2017

To: Mayor and City Council

From: Chad Thompson, Fire Chief

Subject: Urgency Ordinance No. 2017-05 Amending Chapters 1.18 and 5.34 of the

Municipal Code in Regard to Fireworks (CT)

RECOMMENDATION

Council conduct a public hearing and following the hearing, introduce the Ordinance, read the title into the record, waive reading in full, and adopt Urgency Ordinance No. 2017-15 amending Chapters 5.34 and 1.18 of the Dinuba Municipal Code relating to the sales, storage and use of fireworks within the City of Dinuba.

EXECUTIVE SUMMARY

The City Council is being asked to adopt Ordinance No. 2017-15 as an urgency ordinance in order to deter the sales, storage and use of "dangerous" fireworks in the City of Dinuba. Ordinance No. 2017-15 includes amendments that grant enforcement officers greater latitude to cite property owners where illegal fireworks are sold or discharged and increases the fine for selling, storing or using dangerous fireworks from \$500 to \$1,500 per occurrence. As an urgency ordinance, the provisions of the ordinance will become effectively immediately upon adoption by the City Council and forego the second reading and 30-day effective period.

OUTSTANDING ISSUES

These amendments are urgent in nature. Due to the increased risks to public welfare, health, life and property and public peace, it is imperative that these amendments be adopted prior to July. Historically, the majority of illegal fireworks activities occur during the days surrounding the Independence Day Holiday.

DISCUSSION

The City has experienced an increase in the use of illegal and dangerous fireworks

during the Independence Day holiday. These dangerous fireworks pose a risk to the community, citizens and properties, and decrease the quality of live in our community. The challenge has been to find a balance between encouraging the legal use of safe and sane fireworks by the community while eliminating or preventing the use of dangerous fireworks.

In an effort to address this balance, the City Council directed the Fire Department to step up enforcement of illegal fireworks. With the Fourth of July holiday upon us, staff is proposing a series of amendments to the Dinuba Municipal Code (DMC) to aide in enforcement efforts. The proposed amendments are summarized as follows:

- Amend Chapter 1.18.040 (A)(3) of the DMC increasing the administrative citation for the possession, storage or discharge of illegal fireworks from \$500 to \$1,500; and
- Amend Chapter 5.34.005 of the DMC adding definitions for Response Costs related to the costs directly related to enforcement efforts and Responsible Party as the person(s) who owns, rents or leases the private residents or other private property; and
- Amend Chapter 5.34.110 of the DMC requiring all fireworks stands to display and 8'x8' banner, provided by the manufacturer of fireworks, stating the City's zero tolerance use of illegal fireworks; and
- Amend 53.24.160 of the DMC grating any designed enforcement official authority to issue an administrative citation for the storage or discharge of illegal fireworks.

The full ordinance with amendments shown in highlight is enclosed herein as Attachment 'A'. The proposed amendments are similar to what other cities have adopted in recent years to deter the sale and discharge of dangerous and illegal fireworks.

Ordinance No. 2017-15 is proposed as an urgency ordinance which will take effect immediately upon adoption by the City Council and will forego the second reading and 30-day wait period before taking effect. This will give staff the added enforcement tools before the upcoming Independence Day holiday.

FISCAL IMPACT

There is no fiscal impact anticipated due to the adoption of Ordinance 2017-05. However, it is possible there will be an increased collection of fines if persons do not comply with the City Municipal Code concerning fireworks.

PUBLIC HEARING

A public hearing notice in regard to the proposed ordinance was published in the Dinuba Sentinel on May 25, 2017.

Subject: Public Hearing for the Annual Levy of Landscaping and Lighting Districts

Annual Assessments for Fiscal Year 2017/18 (MM)

RECOMMENDATION

Council to conduct a public hearing to receive public testimony in regard to the proposed Fiscal Year 2017/18 assessments and following the hearing, take action to adopt Resolution No. 2017-27 ordering the levy and collection of assessments within the City's Landscaping and Lighting Assessment Districts for FY 2017/18.

EXECUTIVE SUMMARY

On May 23, the City Council scheduled a public hearing for June 13, 2017 to levy Landscape and Lighting Districts Annual Assessment for FY 2017/18. The Landscaping and Lighting Act of 1972 requires that the City Council annually review and update the assessments for properties within the Districts. The proposed annual assessment for FY 2017-18 includes various changes for the district. The FY 2017/18 Engineer's Report is attached as Attachment 'B'. The action tonight is a formality required under the Landscape and Lighting Act of 1972.

OUTSTANDING ISSUES

The FY 2017-18 annual report estimates that a total operating budget of \$415,800 is required to fund the maintenance of all 18 Districts. However, it is estimated that a total of approximately \$373,400 will be collected in revenue from the annual assessments. The difference of approximately \$42,000 will need to be funded via a contribution from reserves held in each district or from another unrestricted revenue source such as the General Fund.

DISCUSSION

The Landscape and Lighting Act of 1972 (the "Act") authorizes cities to impose

assessments on benefitted properties to finance construction of street landscaping, street lighting, traffic signals, parks, street trees, sidewalk repair, recreational improvements as well as maintenance and servicing of any of these improvements. The City of Dinuba formed a total of 18 Districts for residential subdivision throughout the community under the Act.

Once the Districts are formed, the Act requires cities to undertake a two part process to levy the annual assessment on properties within the districts. The first part of the process requires Council to take action to initiate proceedings for the levy, approve the Annual Reports for the Districts and call for a Public Hearing. The Council took this action on May 23, 2017. The second part to complete the levy process is for the Council to conduct a public hearing to allow all interested persons an opportunity to hear and be heard and, if no majority protest exists, order the levy and collection of the assessments within the Districts. This is the action before the Council tonight.

As part of the annual levy, the City prepares an annual report for each District that includes a proposed operating budget which is used to calculate the assessment levied for each parcel. This budget determines what maintenance operations are performed for the fiscal year and directs the County Assessor what to levy each parcel. The proposed FY 2017-18 operating budget to maintain all 18 Districts is estimated to be \$415,800 and the revenue from assessments is estimated to be \$373,400. The shortfall of \$42,400 will be covered by any reserves from each District or by the General Fund. The City will evaluate alternatives for closing the revenue gap over the long-term in Districts having a shortfall.

The annual assessments for FY 2017-18 are proposed as follows:

The following districts propose to levy assessment rates that are higher than the prior year, based on the estimated costs for Fiscal Year 2017/18, and the assessment rates are equal to or less than the maximum assessment rates:

- Assessment District No. 90-01 Harvest Estates
- Assessment District No. 95-02 Sierra Heights
- Assessment District No. 06-01 Sugar Plum-Villagio
- Assessment District No. 06-02 Citrus Heights
- Assessment District No. 06-03 Sierra View
- Assessment District No. 10-02 Lincoln-McKinley

The following districts propose to levy at the maximum assessment rate, which is escalated by 5% from the prior year:

- Assessment District No. 89-01 Country Club Estates
- Assessment District No. 90-02 Peachwood Village
- Assessment District No. 92-01 Nebraska Park
- Assessment District No. 93-01 Marshall Acres
- Assessment District No. 95-01 Tierra Vista

The following districts propose to levy assessment rates that are less than the prior year based on the estimated costs for Fiscal Year 2017/18:

- Assessment District No. 99-01 Morningside Phase 2
- Assessment District No. 06-04 Stony Creek
- Assessment District No. 09-01 Viscaya
- Parkside Village Unit Nos. 2 and 3 Landscape and Lighting Assessment District

Resolution No. 2017-27 (Attachment 'A') ordering the proposed levy and collection of assessments is attached.

FISCAL IMPACT

The FY 2017-18 annual assessments include various changes for the Districts. The rates are less than or equal to the property owner approved maximum assessment. The Fiscal Year 2017/18 Annual Report prepared for the Districts was approved on May 23, 2017 and provides the details of the rates and levy for the Districts. The proposed revenue from assessments for FY 2017-18 is estimated to be \$373,400 and the cost to maintain the Districts is estimated to be \$415,800. The shortfall of \$42,400 will be covered by reserves from each respective District or by a transfer from the General Fund.

1. COUNTRY CLUB ESTATES

Assessment District No. 89-01 – Country Club Estates ("Country Club Estates") was formed in 1989 pursuant to the Landscaping and Lighting Act of 1972. The boundaries and assessment methodology presented in this report were originally developed by the City of Dinuba.

1.1. Plans and Specifications

Below is a list of the improvements funded by the assessments levied upon the parcels in Country Club Estates:

- A landscaping strip along West El Monte Way
- A detention pond at the end of North Kelly Drive (also with frontage on West Pamela Lane)
- Masonry walls along West El Monte Way and along the portions of three parcels that share a border with the detention pond
- Five internal street lights and an additional three along North Lillie Avenue (on the Country Club Estates side of North Lillie Avenue)

These improvements are collectively known as the "Country Club Estates Improvements." A map of these improvements can be found in the Appendices of this report.

1.2. Boundary Description & Diagram

Country Club Estates generally consists of property northerly located along West Kelly Drive, west of Lillie Avenue, north of West El Monte Way, and properties easterly located along North Kelly Drive.

A diagram showing the external boundaries of Country Club Estates can be found in the Appendices of this report.

1.3. General Benefit

The Country Club Estates Improvements will confer both special and general benefits. The City is required to quantify the general benefits, separate them from the special benefits, and fund that portion of the budget representing general benefit through sources other than assessments.

A General Benefit Separation and Quantification Analysis was prepared by NBS in April of 2017 that estimated the proportion of special and general benefits. The analysis resulted in an estimated 15.4% of general benefit. Therefore, this percentage of the total maintenance budget cannot be funded by the assessments. A copy of the analysis can be found in the Appendices.

1.4. Estimate of Costs

Below is an estimate of the costs needed to fund the Country Club Estates Improvements for Fiscal Year 2017/18:

Description	Estimated Amount
City Maintenance Costs (1)	\$6,670.60
Contractor Costs (2)	1,921.00
Total Maintenance Costs	\$8,591.60

County Costs (3)	\$66.75
City Administrative Overhead (4)	1,467.68
Administrator Costs (5)	968.05
Fund Balance Adjustment (6)	1,947.75
Total Non-Maintenance Costs & Fund Adjustment	\$4,450.23

- (1) Includes Salaries, Repair & Maintenance costs, and Utilities.
- (2) Third-party maintenance services. Responsible for mowing and edging turf areas, maintaining flowerbeds, keeping hardscape areas clean, and keeping trees raised to contract heights.
- (3) The County charges \$200 per fund, plus \$1 per parcel. Because of the County's policy of only allowing ten funds per agency, the City combines all but four districts into a single submittal file. As such, the \$1 per parcel fee is charged directly to the applicable district, and the \$200 fee is spread among the combined districts based on the proportion of parcels levied.
- (4) Includes City overhead, liability, fire, and risk insurances.
- (5) Costs of NBS to administer the district including preparation of the engineer's report, levy calculation, parcel data tracking, and handling property owner inquiries.
- (6) If the fund balance shows a deficit, the amount to levy is increased up to the maximum.

1.5. Assessment Methodology and Rates

According to the original engineer's report, the costs are divided equally among the assessable lots.

In July of 2008, a rate inflator was proposed to the property owners and a protest ballot proceeding was conducted by the City. The property owners approved the addition of the rate inflator. Accordingly, the maximum assessment rate increases annually by the lesser of cost or 5%.

The table below shows the current and prior year actual and maximum assessment rates:

Fiscal Year	Actual Rate (1)	Maximum Rate
2016/17	\$214.58	\$214.58
2017/18	225.30	225.30

The actual levy will be an even amount as required by the County

1.6. Assessment of the Estimated Costs

The table below shows the assessment of the estimated costs of the Country Club Estates Improvements:

Description	Estimated Amount
General Benefit Percentage (1)	15.4%
Maintenance costs to be funded by Assessment	\$7,265.37
Maintenance costs to be funded by other sources	1,326.23

Proposed Assessment Revenue Total	11,715.60
Total City contribution (4)	\$1,326.23

- (1) Percentage estimated in the General Benefit Separation and Quantification Analysis prepared by NBS.
- (2) Only the special benefit portion of Maintenance Costs are funded through the assessment, but 100% of non-maintenance costs are funded through the assessment because these costs are attributed only to the district.
- (3) The difference between the Maximum Assessment Revenue and the Total Assessment Revenue Needed. A shortfall (negative value) means that the special benefit portion of the budget cannot be fully funded by the assessments.
- (4) The total amount to be contributed from non-assessment funds. Includes the general benefit portion of the budget as well as any budget shortfall.

The assessment roll showing each parcel's proposed assessment amount can be found in the Appendices section of this report.

2.2. Boundary Description & Diagram

Harvest Estates generally consists of property located south of West Nebraska Avenue, east of North Euclid Avenue and along West Euclid Circle, and west of North Alta Avenue.

A diagram showing the external boundaries of Harvest Estates can be found in the Appendices of this report.

2.3. General Benefit

The Harvest Estates Improvements will confer both special and general benefits. The City is required to quantify the general benefits, separate them from the special benefits, and fund that portion of the budget representing general benefit through sources other than assessments.

A General Benefit Separation and Quantification Analysis was prepared by NBS in March of April that estimated the proportion of special and general benefits. The analysis resulted in an estimated 36.1% of general benefit. Therefore, this percentage of the total maintenance budget cannot be funded by the assessments. A copy of the analysis can be found in the Appendices.

As such, the \$1 per parcel fee is charged directly to the applicable district, and the \$200 fee is spread among the combined districts based on the proportion of parcels levied.
- (4) Includes City overhead, liability, fire, and risk insurances.
- (5) Costs of NBS to administer the district including preparation of the engineer's report, levy calculation, parcel data tracking, and handling property owner inquiries.
- (6) If the fund balance shows a deficit, the amount to levy is increased up to the maximum.

2.5. Assessment Methodology and Rates

According to the original engineer's report, the costs are divided equally among the assessable lots.

There is no rate inflator associated with Harvest Estates. Accordingly, the maximum assessment rate has remained flat since the district was formed.

The table below shows the current and prior year actual and maximum assessment rates:

Fiscal Year	Actual Rate (1)	Maximum Rate
2016/17	\$84.54	\$91.72

Total Costs	\$73,679.45

- (1) Includes Salaries, Repair & Maintenance costs, and Utilities.
- (2) Third-party maintenance services. Responsible for mowing and edging turf areas, maintaining flowerbeds, keeping hardscape areas clean, and keeping trees raised to contract heights.
- (3) The County charges \$200 per fund, plus \$1 per parcel. Because of the County's policy of only allowing ten funds per agency, the City combines all but four districts into a single submittal file. As such, the \$1 per parcel fee is charged directly to the applicable district, and the \$200 fee is spread among the combined districts based on the proportion of parcels levied.
- (4) Includes City overhead, liability, fire, and risk insurances.
- (5) Costs of NBS to administer the district including preparation of the engineer's report, levy calculation, parcel data tracking, and handling property owner inquiries.
- (6) If the fund balance shows a deficit, the amount to levy is increased up to the maximum.

4.5. Assessment Methodology and Rates

According to the original engineer's report, the costs are first divided proportionally among the assessable acreage and then equally among the assessable lots resulting from subdivision.

In July of 2008, a rate inflator was proposed to the property owners and a protest ballot proceeding was conducted by the City. The property owners approved the addition of the rate inflator. Accordingly, the maximum assessment rate increases annually by the lesser of cost or 5%.

The table below shows the current and prior year actual and maximum assessment rates:

Fiscal Year	Actual Rate (1)	Maximum Rate
2016/17	\$146.22	\$146.22
2017/18	153.52	153.52

The actual levy will be an even amount as required by the County

The rates in the table above represent the lowest levy amount for a single-family residential parcel in Nebraska Park. SFR parcels with this assessment represent the base benefit unit in order to maintain the proportionality established by the City through historical practice.

4.6. Assessment of the Estimated Costs

The table below shows the assessment of the estimated costs of the Nebraska Park Improvements:

- (1) Percentage estimated in the General Benefit Separation and Quantification Analysis prepared by NBS.
- (2) Only the special benefit portion of Maintenance Costs are funded through the assessment, but 100% of non-maintenance costs are funded through the assessment because these costs are attributed only to the district.
- (3) The difference between the Maximum Assessment Revenue and the Total Assessment Revenue Needed. A shortfall (negative value) means that the special benefit portion of the budget cannot be fully funded by the assessments.
- (4) The total amount to be contributed from non-assessment funds. Includes the general benefit portion of the budget as well as any budget shortfall.

The assessment roll showing each parcel's proposed assessment amount can be found in the Appendices section of this report.

9.7. Assessment Funds

Morningside Phase 1 is projected to carry over a deficit balance of \$89,006 from the prior fiscal year.

The City will contribute approximately \$6,349 in non-assessment district funds to cover the general benefit portion of the maintenance budget as well as the budget shortfall.

10. MORNINGSIDE PHASE 2

Assessment District No. 99-01 – Morningside Phase 2 ("Morningside Phase 2") was formed in 1999 pursuant to the Landscaping and Lighting Act of 1972. The boundaries and assessment methodology presented in this report were originally developed by the City of Dinuba.

10.1. Plans and Specifications

Below is a list of the improvements funded by the assessments levied upon the parcels in Morningside Phase 2:

- A masonry wall along Road 72 only along the west side of the first parcel north of West Kelly Drive (014-470-009)
- Landscaping along the masonry wall
- 12 street lights
- A detention basin on West Pamela Lane (shared funding with Morningside Phase 1)
- A turf area along West Pamela Lane (shared funding with Morningside Phase 1)

These improvements are collectively known as the "Morningside Phase 2 Improvements." A map of these improvements can be found in the Appendices of this report.

10.2. Boundary Description & Diagram

The District generally consists of properties along West Kelley Drive, Quail Run Drive, Red Robin Drive, and Morningstar Drive.

A diagram showing the external boundaries of Morningside Phase 2 can be found in the Appendices of this report.

10.3. General Benefit

The Morningside Phase 2 Improvements will confer both special and general benefits. The City is required to quantify the general benefits, separate them from the special benefits, and fund that portion of the budget representing general benefit through sources other than assessments.

A General Benefit Separation and Quantification Analysis was prepared by NBS in April of 2017 that estimated the proportion of special and general benefits. The analysis resulted in an estimated 17.2% of general benefit. Therefore, this percentage of the total maintenance budget cannot be funded by the assessments. A copy of the analysis can be found in the Appendices of this report.

Below is an estimate of the costs needed to fund the Morningside Phase 2 Improvements for Fiscal Year 2017/18:

Description	Estimated Amount
City Maintenance Costs (1)	\$4,300.00
Contractor Costs (2)	2,547.00
Total Maintenance Costs	\$6,847.00

County Costs (3)	\$60.33
City Administrative Overhead (4)	1,326.55
Administrator Costs (5)	968.05
Fund Balance Adjustment (6)	0.00
Total Non-Maintenance Costs & Fund Adjustment	\$2,354.93

- (1) Includes Salaries, Repair & Maintenance costs, and Utilities.
- (2) Third-party maintenance services. Responsible for mowing and edging turf areas, maintaining flowerbeds, keeping hardscape areas clean, and keeping trees raised to contract heights.
- (3) The County charges \$200 per fund, plus \$1 per parcel. Because of the County's policy of only allowing ten funds per agency, the City combines all but four districts into a single submittal file. As such, the \$1 per parcel fee is charged directly to the applicable district, and the \$200 fee is spread among the combined districts based on the proportion of parcels levied.
- (4) Includes City overhead, liability, fire, and risk insurances.
- (5) Costs of NBS to administer the district including preparation of the engineer's report, levy calculation, parcel data tracking, and handling property owner inquiries.
- (6) If the fund balance shows a deficit, the amount to levy is increased up to the maximum.

10.5. Assessment Methodology and Rates

According to the original engineer's report, the costs are divided equally among the assessable lots. At the time of formation, there were 47 SFR parcels that were each assigned an equal assessment. Additionally, there was one large lot parcel (originally referred to as Lot 48) that was assigned a total assessment of \$2,242.83. Lot 48 was subsequently subdivided into 41 SFR lots. This was equal to a rate per lot of \$54.70. As compared to the original SFR parcels not part of Lot 48, the Lot 48 SFR parcels were a rate that was approximately 32.177% of the other SFR parcels. The City has retained this proportionality since the time of formation. Accordingly, two different rates are applied to these two groups.

The formation engineer's report for Morningside Phase 2 included an annual rate inflator that is calculated using the same method used for Proposition 13 taxation increases. The formula is based on the change in the California Statewide CPI as of October, not to exceed 2%. The increase effective for Fiscal Year 2017/18 was 2.62%.

The table below shows the current and prior year actual and maximum assessment rates for the parcels originating from the area formerly known as Lot 48:

Fiscal Year	Actual Rate (1)	Maximum Rate
2016/17	\$62.60	\$54.70
2017/18	42.88	74.06

The actual levy will be an even amount as required by the County

The table below shows the current and prior year actual and maximum assessment rates for the SFR parcels not originating from Lot 48:

Fiscal Year	Actual Rate (1)	Maximum Rate
2016/17	\$198.28	\$225.66
2017/18	133.26	230.18

The actual levy will be an even amount as required by the County

15.3. General Benefit

The Parkside/Muirfield Improvements will confer both special and general benefits. The City is required to quantify the general benefits, separate them from the special benefits, and fund that portion of the budget representing general benefit through sources other than assessments.

A General Benefit Separation and Quantification Analysis was prepared by NBS in April of 2017 that estimated the proportion of special and general benefits. The analysis resulted in an estimated 14.9% of general benefit. Therefore, this percentage of the total maintenance budget cannot be funded by the assessments. A copy of the analysis can be found in the Appendices of this report.

Below is an estimate of the costs needed to fund the Parkside/Muirfield Improvements for Fiscal Year 2017/18:

Description	Estimated Amount
City Maintenance Costs (1)	\$46,521.00
Contractor Costs (2)	13,975.00
Total Maintenance Costs	\$60,496.00

County Costs (3)	\$556.00
City Administrative Overhead (4)	10,047.94
Administrator Costs (5)	3,006.05
Fund Balance Adjustment (6)	0.00
Total Non-Maintenance Costs & Fund Adjustment	\$13,609.99

Total Costs \$74,105.99

- (1) Includes Salaries, Repair & Maintenance costs, and Utilities.
- (2) Third-party maintenance services. Responsible for mowing and edging turf areas, maintaining flowerbeds, keeping hardscape areas clean, and keeping trees raised to contract heights.
- (3) The County charges \$200 per fund, plus \$1 per parcel. Because of the County's policy of only allowing ten funds per agency, the City combines all but four districts into a single submittal file. As such, the \$1 per parcel fee is charged directly to the applicable district, and the \$200 fee is spread among the combined districts based on the proportion of parcels levied.
- (4) Includes City overhead, liability, fire, and risk insurances.
- (5) Costs of NBS to administer the district including preparation of the engineer's report, levy calculation, parcel data tracking, and handling property owner inquiries.
- (6) If the fund balance shows a deficit, the amount to levy is increased up to the maximum.

15.5. Assessment Methodology and Rates

According to the original engineer's report, the costs are divided equally among the assessable lots.

The formation engineer's report for Parkside/Muirfield included an annual rate inflator that is calculated based on the change in the US City Average CPI-U as of December. The increase effective for 2017/18 was 2.07%.

The table below shows the current and prior year actual and maximum assessment rates:

Fiscal Year	Actual Rate (1)	Maximum Rate
2016/17	\$181.74 and \$181.88	\$413.29
2017/18	182.83	421.87

(1) The actual levy will be an even amount as required by the County. Rates were equalized in 2017/18 for the Parkside and Muirfield subdivisions following a review of the original engineer's report.

The table below shows the assessment of the estimated costs of the Parkside/Muirfield Improvements:

Description	Estimated Amount
General Benefit Percentage (1)	14.9%
Maintenance costs to be funded by Assessment	\$51,476.76
Maintenance costs to be funded by other sources	9,019.24
Non-Maintenance Costs & Fund Adj. funded by Assessment	13,609.99
Assessable benefit units	356.00
Maximum Assessment Rate	\$421.87
Maximum Assessment Revenue	150,185.72
Total Assessment Revenue Needed (2)	\$65,086.75
Revenue Capacity / (Shortfall) (3)	85,098.97
Proposed Assessment Rate	182.83
Proposed Assessment Revenue Total	65,087.48
Total City contribution (4)	\$9,019.24

- (1) Percentage estimated in the General Benefit Separation and Quantification Analysis prepared by NBS.
- (2) Only the special benefit portion of Maintenance Costs are funded through the assessment, but 100% of non-maintenance costs are funded through the assessment because these costs are attributed only to the district.
- (3) The difference between the Maximum Assessment Revenue and the Total Assessment Revenue Needed. A shortfall (negative value) means that the special benefit portion of the budget cannot be fully funded by the assessments.
- (4) The total amount to be contributed from non-assessment funds. Includes the general benefit portion of the budget as well as any budget shortfall.

The assessment roll showing each parcel's proposed assessment amount can be found in the Appendices section of this report.

15.7. Assessment Funds

Parkside/Muirfield is projected to carry over a balance of \$269,219 from the prior fiscal year.

The City will contribute approximately \$9,019 in non-assessment district funds to cover the general benefit portion of the maintenance budget.

The City has plans to install playground equipment at the park site along Cameron Way at a total cost estimated not to exceed \$55,000. These new improvements are consistent with the existing general benefit analysis and the currently funded improvements. The cost of these new improvements will be paid from the existing fund balance for Parkside/Muirfield.

A diagram showing the external boundaries of Viscaya can be found in the Appendices of this report.

16.3. General Benefit

The Viscaya Improvements will confer both special and general benefits. The City is required to quantify the general benefits, separate them from the special benefits, and fund that portion of the budget representing general benefit through sources other than assessments.

A General Benefit Separation and Quantification Analysis was prepared by NBS in April of 2017 that estimated the proportion of special and general benefits. The analysis resulted in an estimated 3.9% of general benefit. Therefore, this percentage of the total maintenance budget cannot be funded by the assessments. A copy of the analysis can be found in the Appendices of this report.

- (4) Includes City overhead, liability, fire, and risk insurances.
- (5) Costs of NBS to administer the district including preparation of the engineer's report, levy calculation, parcel data tracking, and handling property owner inquiries.
- (6) If the fund balance shows a deficit, the amount to levy is increased up to the maximum.

16.5. Assessment Methodology and Rates

According to the original engineer's report, the costs are divided equally among the "equivalent residential units." Historically, the City has applied the same rate to single-family residential units and multi-family residential units.

The formation engineer's report for Viscaya included an annual rate inflator that is calculated based on the change in the US City Average CPI-U as of December. The increase effective for 2017/18 was 2.07%.

18.5. Assessment Methodology and Rates

According to the original engineer's report, single-family residential parcels are assigned one benefit unit per dwelling unit. Other land uses such as Common Area, Open Space, Easements, Utility Parcels, and Streets are assigned zero benefit units. The total assessable costs are assessed to the parcels within Parkside Village based on the benefit unit assigned to each parcel. The assessment rate per benefit unit is calculated by dividing the total assessable costs by the district's total benefit units.

Each fiscal year, beginning in 2016/17, the maximum assessment rate may be increased by the percent change in the December to December Consumer Price Index for all Urban Consumers for the Pacific Cities and U.S. City Average, published by the U.S. Department of Labor, Bureau of Labor Statistics, provided that any increase shall not exceed 3%.

The table below shows the current and prior year actual and maximum assessment rates:

Resolution No. 2017-25 Adopting FY 2017/18 Operating Budget and

Subject: Resolution 2017-26 Adopting the FY 2017/18 GANN Appropriations Limit

(MM)

RECOMMENDATION

Council to conduct a public hearing and take the following actions by separate motions:

- 1. Adopt Resolution No. 2017-25 approving the Fiscal Year 2017/18 Operating Budget and adjustments to the Fiscal Year 2016/17 budget.
- Adopt Resolution No. 2017-26 establishing the Appropriations (GANN) Limit for Fiscal Year 2017/18.

EXECUTIVE SUMMARY

The recommended FY 2017/18 Annual Budget is submitted for Council's consideration. The budget reflects the Council's goals and objectives and provides the necessary funding so that the organization maintains core public service levels. This year's budget theme of "focusing on long-term fiscal sustainability" reflects the commitment by staff to ensure that the organization is positioned to meet the challenges and services needs of today and tomorrow.

OUTSTANDING ISSUES

None.

DISCUSSION

The preliminary budget was presented to the City Council on May 23, 2017. During the budget presentation, there were several challenges and opportunities noted. The

two major challenges reflected in the budget include the loss of public safety tax revenue in the Measure F Fund and the revenue gap in the Water Fund. The loss of approximately \$1.5 million annually in the Measure F fund will be addressed through a proposed amendment to the Operating Agreement with BestBuy that would defer their share of sales taxes over three years to allow the City to absorb the loss with the increase in the Bradley-Burns 1% sales tax revenue. The rates in the Water Fund continue to reflect a gap in revenue over expenditures of approximately \$420,000 as operational costs increase and customers continue to conserve and use less water. The rates will need to be revisited over the next few months and adjustments considered in order to close the revenue shortfall in the Water Fund.

Despite these challenges, the City sees some opportunities looking forward particularly the continued growth in sales tax revenue, retail recruitment and new housing developments. The Bradley-Burns 1% sales tax revenue has steadily increased largely due to the Operating Agreement with BestBuy.com. The City expects sales tax revenue to grow as internet-based sales increase from BestBuy.com. The active targeting and recruitment of retailers has resulted in some positive relationships with prospective companies interested in Dinuba. Lastly, the Viscaya II and Woodside Homes subdivisions not only provide much needed housing for the community but hopefully will encourage additional projects in the community that will stimulate the overall local economy.

The total City-wide budget proposed for fiscal year 17/18 is \$53,613,165 and expenditures by fund type are summarized below:

General Fund	\$17,257,053
Enterprise Funds	\$15,602,514
Special Revenue Funds	\$ 9,292,725
Internal Service	\$ 6,562,740
Capital Projects	\$ 1,206,500
Debt Service	\$ 3,691,633

General Fund

The General Fund accounts for core public services such as Police, Fire, Parks and Recreation, Administration and Finance. The General Fund is primarily funded from general tax revenues with the largest source coming from sales tax. The total General Fund expenditures is \$17,257,053 million with revenues of \$17,352,200 resulting in a surplus of \$95,147. The General fund includes a shift in public safety personnel from the Measure F Fund totaling \$1.5 million, position reclassifications totaling \$58,132 and centralizing the planning, engineering, building, code enforcement and housing functions into the Community Development Department. The City is also hoping to reach an agreement with BestBuy to defer their share of sales tax over a three-year period in order for the City to absorb the loss in public safety tax revenue.

Business Type Funds

The Business Type funds include Water, Sewer, Disposal, Ambulance and the Golf

Course. These funds are primarily funded from user fees and other charges. Currently the total proposed budgets for these funds is \$15.6 million. The budget the Sewer Fund includes an additional \$50,000 for removal of biosolids. Due to payoff of some debt and the rate increases approved last year, the revenues in the Sewer Fund now cover operational expenses with a slight surplus of \$31,222. The Water Fund continues to reflect a deficit with a revenue gap of \$420,895. Adjustments to rates in the Water Fund will need to be evaluated in the near future. The revenue in the Ambulance Fund reflects ongoing growth primarily due to the Intergovernmental Transfers to the City for ambulance service reimbursements. The Disposal Fund shows a deficit of \$93,113 but there are sufficient reserves to absorb the revenue shortfall without the need to raise rates this year. The Golf Course Fund continues to see a growth in revenue for the restaurant and the event center. Rounds have decreased slightly primarily due to the rainy winter season. Overall, the fund expects a positive revenue over expenses of \$122,087.

Special and Internal Service Funds

The proposed Special Revenue Funds and Internal Service Funds budget for Fiscal year 2017-18 total \$15.7m. The Special Revenue Funds are used to account for restricted revenues such as the Measure F, Gas Tax, COPS program, etc. The Measure F Fund reflects a loss of \$1.5 million in public safety tax revenue due to overpayment to the City. A total of 10 public safety personnel were transferred to the General Fund in FY 2017/18. Internal Service funds account for charges assessed internally to City departments for operation, maintenance and replacement of vehicles.

Capital Projects

The Capital Project funds include local, state and federal revenues to fund infrastructure projects throughout the City. The projects reflect an ongoing commitment to improve and expand City parks, streets and other major infrastructure throughout the City. Capital projects total approximately \$5.0 million. These projects are critical to maintaining and improving the City's infrastructure and public facilities. The top projects include the Kamm/Green bulb-outs, College Avenue Rail Crossing Improvements, and new ambulance funded by a donation from the Alta Healthcare District. Although the funding to complete the design of Fire Station No. 2 is included in the budget, the project will be on hold while the overall feasibility of the project is evaluated over the next year. A detailed summary of City-wide capital improvement projects is included in the budget.

Fiscal Year 2016/17 Adjustments

The proposed FY 2017/18 budget includes some adjustments to the Fiscal Year 2016/17 budget primarily to reflect a transfer of \$1.3 million from the General and Ambulance Funds to the Measure F Fund as a result of the loss of public safety sales tax.

Resolution No. 2017-25 enclosed herein at Attachment 'A' includes a full copy of the proposed Fiscal Year 2017/18 Operating Budget as Exhibit 'A'.

GANN Appropriation Limit

Article XIIIB of the California Constitution requires cities to adopt annual appropriation limits as part of their budget adoption process. The City's appropriations limit is adjusted annually, based upon inflation and population growth. The calculated appropriation limit FY 2017/18 is \$19,020,521.

Resolution No. 2017-26 enclosed herein as Attachment 'B' reflects the annual appropriation limits for Fiscal Year 2017/18.

Overview

For fiscal year 2017/18, the City of Dinuba's budget theme is "Focus on long-term fiscal sustainability" which translated to our operations, means that we will continue to provide excellent services while keeping our expenses as low possible to ensure the long term fiscal sustainability of the City.

The proposed budget presented herein has been prepared with careful consideration for the following challenges that are anticipated within the current and subsequent fiscal years:

- Loss of Public Safety Tax The City was notified by the State Board of Equalization that the public safety tax revenue (Measure F) was overstated. The correction was made beginning with the 4th Quarter of 2016. As a result, the City is expected to lose approximately \$1.5 million in annual public safety tax revenue in Measure F fund. The preliminary budget reflects a shift in 10 public safety personnel from the Measure F Fund to the General Fund. In addition, the BOE also advised the City that it intends to "claw" back 3rd and 4th Quarter 2016 public safety tax revenue in the amount of \$593,242. Staff is working with the BOE to repay this amount over 8 quarters. In order to transition the loss of public safety tax revenue, staff is working with Best Buy on deferring its share of the sales tax growth under the Operating Agreement over the next three years. This would give the City some time to absorb the loss of public safety tax revenue with an increase in the Bradley-Burns 1% sales tax revenue. The City would repay the deferred amount over a five-year period.
- CalPERS Lowers Discount Rate The California Public Employees' Retirement System (CalPERS) Board of Administration voted earlier this year to lower the discount rate from 7.5 percent to 7.0 percent over the next three years. This incremental lowering of the discount rate, or assumed rate of return, is intended to give employers more time to prepare for the changes in contribution costs. The impact of this decision is unknown at this time but will result in higher employer contributions to employee retirement beginning July 1, 2018.
- Enterprise Revenue Gap The City is projecting a continued gap in revenue over expenditures in the Water Fund. This is largely due to the recent drought as customers cut back on water use as mandated by the Governor's emergency order. In addition, the cooler weather has contributed to lower water use. For example, between June 2015 and April 2017, water customers reduced water consumption by 31.59%. The gap will be covered using reserves, but water rates will need to be evaluated and adjusted to close the gap long-term. Although

revenues slightly exceed expenditures in the Sewer Fund, there is a need to upgrade the wastewater reclamation facility to ensure redundancy and expansion to accommodate future growth. Sewer rates will also need to be evaluated and adjusted to cover these costs.

- Fire Station No. 2 The loss of public safety sales tax revenue will impact the timing on the construction of the second fire station. Staff is evaluating the feasibility of moving forward with the project or delaying the project for a year or two until we have a better handle on sales tax revenues to sustain the fire station.
- Restructuring Budget The existing budget contains a myriad of fund types that
 are redundant or not needed. Staff is working on restructuring the budget for FY
 2017/18 and FY 2018/19 to eliminate the number of funds and streamline the
 budget. In addition, staff is reorganizing personnel allocations to more accurately
 reflect current and future operations.

While the challenges are imminent, they are anticipated, therefore staff will be taking measures to ensure that the effects of these possible set backs are not detrimental to the City's operations. The possible effects of the challenges are reduced by opportunities going forward such as:

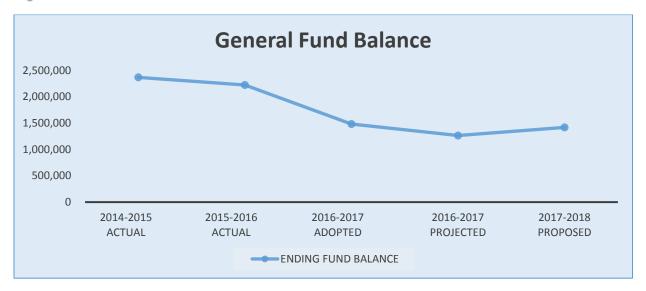

- Growth in Sales Tax Revenue The City is projecting higher Bradley-Burns 1% sales tax revenues for FY 2017/18. This increase is largely due to the Operating Agreement entered into with BestBuy in 2015 to identify the point-of-sale for all internet based transactions at the Distribution Center in Dinuba. Under the Agreement, the City shares a portion of this increased sales tax with Best Buy. The City expects sales tax revenues to continue to grow as more and more consumers shop on-line.
- Retail Recruitment The City retained a consultant to prepare and implement a
 targeted retail recruitment strategy. The Retail Coach has completed its
 demographic and retail gap analysis and identified a primary and secondary
 trade area for the City of Dinuba. The consultant has begun direct contact with
 targeted retailers. Staff is optimistic that this targeted effort will result in new
 businesses locating in Dinuba.
- New Housing Construction New housing projects are once again in development. Two projects are currently in development with a third project in the final stages of moving forward with construction. Viscaya II is close to completing Phase I consisting of 28 units and Ridge Creek Ranch Phase I is underway with 79 units being developed. Terra Vista Phase II consisting of 42 units is awaiting approval from FEMA before commencing with development of this project.

Staff will monitor the revenues and expenditures closely to safeguard the fiscal sustainability of the City.

General Fund Balance Summary

The City of Dinuba ended the 2016/17 fiscal year with a General Fund Balance of approximately \$1.2 million. Staff is estimating a slight increase to the General Fund balance for the 2017/18 fiscal year. Figure 1 below shows the history of the General Fund balance.

Figure 1

GENERAL FUND OVERVIEW

The following report presents projections of year-end revenues and expenditures for the current Fiscal Year 2016/17 and for the proposed Fiscal Year 2017/18. Projections are determined using current actual (unaudited) data, historical data and departmental information regarding spending and revenue trends and operations.

For the remainder of the 2016/17 fiscal year, staff will be carefully evaluating revenues and expenditures and have made adjustments as necessary for the final budget is presented to Council on June 13, 2017. The Proposed General Fund Budget for Fiscal Year 2017/18 is presented hereafter in the following categories.

General Fund Summary of Revenues and Expenditures

The proposed budget for Fiscal Year 2017/18 projects revenue of approximately \$17.3 million and expenditures of nearly \$17.2 million.

^{*}Note:

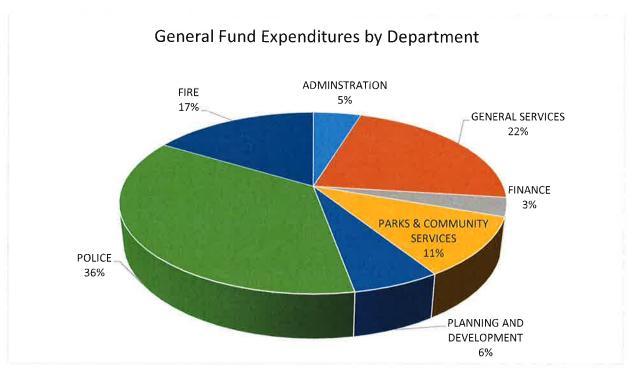

⁽¹⁾ The revenue over expenses reflects a surplus of \$95,147. This surplus is based on the assumption that an agreement will be reached with Best Buy to defer their share of the increase in internet sales tax revenue over the next three years to allow the city to absorb the loss of public safety tax revenue.

General Fund Expenditures

As reflected in Table 1, the General Fund Expenditures for Fiscal Year 2016/17 total \$18,058,266. The expenditures are spread over several departments, which provide core services to the community. The budget was prepared with expenditures known at this time and may be adjusted as additional information is provided between now and the final budget presentation in June 2017.

Table 2 displays the percentage breakdown of expenditure by department for Fiscal Year 2017/18. As is common amongst cities, the City's greatest investment of General Fund resources is in the public safety funds. While the Parks and Community Services Department makes up 11% of the total General Fund budget, budgeted expenditures will decrease by over 4% from the current year. The investments in public safety and parks and community services are keys to the City's high quality of life.

Table 2

General Fund Revenues

Table 3 reflects a summary of the General Fund Revenues. The projected revenue for fiscal year ending June 30, 2017 is estimated at approximately \$17.9 million. For the upcoming fiscal year, revenues have a slight decrease due sale of property received in 2016/17.

⁽¹⁾ Sales tax revenues are projected to increase due to the growth in internet sales tax. This increased projection is gross revenue and does not account for obligations such as operating agreement with Best Buy, cost of living adjustments, and transferring of public safety personnel to the general fund.

Enterprise Funds

The business-type funds include the Water, Sewer, Disposal, Golf, and Ambulance Funds. These funds are operated in a manner similar to a private business. In contrast to the General Fund, each enterprise fund operates as a separate entity. That means the each function maintains a separate set of books. User charges must be established and maintained at proper levels to assure adequate income to pay for current services and maintain reserves to allow for adequate cash on hand at all times, pay bills, mitigate emergencies and provide for operating capital needs.

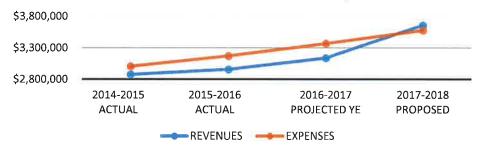

<u>Water</u> – The drought and subsequent water conservation efforts have reduced revenues in the Water Fund. Looking forward revenues are not sufficient to meet expenses. A rate adjustment was done in January 2017 and another scheduled increase in July 2017 is anticipated, however the city still expects reduced revenue due to a rainy season and reduced water consumption.

Water Revenues and Expenses

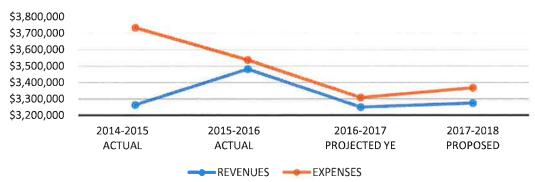

<u>Sewer</u> – With the dissolution of Redevelopment in 2012, the Sewer Fund took on debt service that was previously paid for with tax increment. In January 2017 there was an increase to Sewer charges that has positively impacted our proposed 2017/18 budget.

Sewer Revenues and Expenses

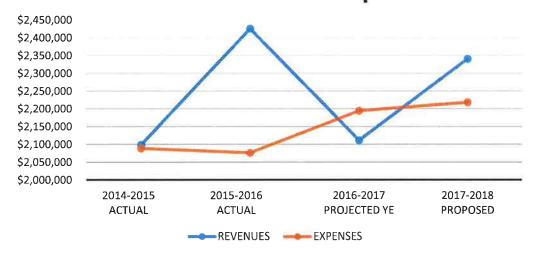

Disposal -No rate adjustments are anticipated in this fund.

<u>Ridge Creek Golf Course</u> – Fiscal year 2016/17 will be the first year that the event center will be operating for a full year, therefore, staff anticipates future increased revenues. Currently there is no reserve in the fund to handle emergencies and capital needs.

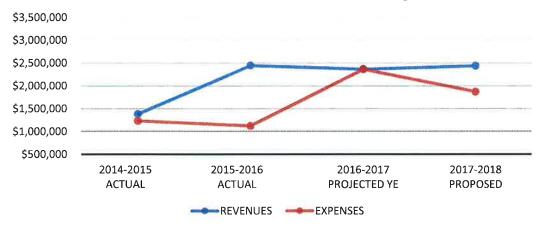

Golf Revenues and Expenses

^{*}note in 2015/16 the gap between revenues and expenses was due to the construction of the event center.

<u>Ambulance</u> – Reserves have grown over the past few years in the Ambulance Fund, due to the receipt of Intergovernmental Transfer revenues.

Ambulance Revenues and Expenses

^{*}note in 2015/16 the gap between revenues and expenses was due to first year receiving the Ground Emergency Medical transport (GEMT) and Intergovernmental Transfer (IGT) revenues.

Internal Service Funds

The City of Dinuba operates five Internal Service Functions: Risk Insurance. Health Insurance. Fleet Maintenance, Property and Facility And Maintenance, Billing Collections. The Billing & Collections function provides for the billing and collection of the City utilities as well as the ambulance services. The Insurance fund is used to account for the City's cost of health insurance for all employees. The Risk Insurance

includes property and liability insurance. The Property and Facilities Maintenance function provides for the general maintenance and custodial work associated with the City's facilities. The City has a vehicle fund to deliver operational and maintenance services for the City's fleet of vehicles. Revenues for the Internal Service Funds are derived from charges to the various department based on a pro rata share.

<u>Vehicles</u> - In 2016/17 six patrol vehicles were leased and 1 administrative vehicle was purchased. It is proposed that the City purchase a hydraulic lift for maintenance of ambulances as well as transit buses. Currently staff does not have the equipment of lift these types of vehicles to provided needed maintenance.

<u>Health</u> - The Health Fund changed providers for health insurance and prescription drugs in fiscal year 2015/16. This change resulted in a reduction in the cost of claims in the past two years. Additionally, the number of high cost claims are down substantially compared to prior fiscal years.

Capital mprovement Projects

Due to the challenges that are anticipated in the 2017/18 proposed budget, staff is prudently considering all Capital Improvement Projects and confirming that only the projects that are absolutely essential and have a secure funding source are considered for the proposed budget.

The second fire station, although included in the proposed list, is being evaluated by staff to determine the practicality of continuing with the project in the 2017/18 fiscal year. At this time, staff is considering putting the project on hold for the next year or so until further analysis is conducted on the viability of the possible funding sources.

City Council Staff Report

Department: CITY MANAGER'S OFFICE June 13, 2017

To: Mayor and City Council

From: Luis Patlan, City Manager

Subject: Amendment No. 1 to Operating Agreement with BestBuy.com, LLC

RECOMMENDATION

Council approve the Amendment No. 1 to the Operating Agreement between the City of Dinuba and BestBuy.com, LLC and authorize the Mayor to execute the agreement.

EXECUTIVE SUMMARY

In December 2015, the City entered into a forty year Operating Agreement with BestBuy.com to secure and share future growth in sales tax revenues from internet sales. The City and BestBuy.com are proposing to amend the Operating Agreement to defer BestBuy.com's share of sales tax revenue up to \$5.0 million over a three-year period. This deferral will give the City some time to absorb the loss of public safety tax revenue with an increase in the Bradley-Burns 1% sales tax revenue. The City will repay the amount over a seven-year period.

OUTSTANDING ISSUES

The amendment to the Operating Agreement will defer BestBuy.com's share of sales tax revenue from internet sales over three years and allow the City to absorb the loss of public safety tax revenue totaling approximately \$1.5 million in the Measure F fund.

DISCUSSION

By way of background, the City of Dinuba entered into an Operating Agreement with BestBuy.com ("BestBuy") in December 2015 to secure and increase sales tax revenue from BestBuy internet sales. Prior to the agreement, the City had experienced fluctuations in sales tax revenue from internet sales. The Operating Agreement not only stabilized but increased revenues from BestBuy internet sales. For example, the City was able to stabilize the \$1.9 million in sales tax that it received from BestBuy internet sales. In addition, the City and BestBuy agreed to share any

internet sales tax revenues above \$3.4 million over a forty-year period. The City receives 55% and BestBuy receives 45% of BestBuy internet sales tax revenue above this amount.

Earlier this year, the City was notified by the State Board of Equalization that the public safety tax revenue (Measure F) was overstated. The correction was made beginning with the 4th Quarter of 2016. As a result, the City will lose approximately \$1.5 million annually in the Measure F fund. This loss required the shift of 10 public safety personnel from the Measure F fund to the General Fund. However, the General Fund would not be able to absorb this shift in personnel without exhausting all on-time emergency reserves.

In order to absorb this loss and ease the transition, staff engaged BestBuy about the possibility of deferring its share of internet-based sales tax under the Operating Agreement. Staff is pleased to report that BestBuy agreed to defer its share of sales revenue. Under the proposed Amendment 1 to the Operating Agreement, BestBuy would defer its share of sales tax up to \$5.0 million over a three-year period. The City would repay any amount deferred to BestBuy over a seven-year period beginning in 2020. In addition, BestBuy is optimistic that it could make additional operational changes to increase sales tax revenue from internet sales in excess of \$7.3 million. If revenue in fact equals or exceeds this amount for two consecutive years, BestBuy is proposing that the City split this amount 50/50. The original 55/45 split would remain as is if internet sales do not equal or exceed this amount. Lastly, the initial forty-year term of the agreement would be extended an additional five years.

In summary, the deferral will give the City a three-year transition period to absorb the loss of public safety tax revenue with the anticipated increase in BestBuy internet sales tax revenues. A copy of Amendment 1 is enclosed herein as Attachment 'A'.

FISCAL IMPACT

Amendment 1 will allow the City to defer BestBuy's share of internet sales tax revenue up to \$5.0 million over a three-year period in order to absorb the loss of \$1.5 million in public safety tax revenue with increased internet sales tax revenues.

City Council Staff Report

Department: ENGINEER/PLANNING June 13, 2017

To: Mayor and City Council

From: Ron Yamabe, City Engineer

Subject: College Avenue Railroad Crossing Safety Improvements (RY)

RECOMMENDATION

Council approve the safety improvements proposed by the California Public Utilities Commission (CPUC) Rail Crossing Engineering Section for S. College Avenue/San Joaquin Valley Railroad (SJVR) crossing.

EXECUTIVE SUMMARY

At the City's request several years ago, CPUC staff analyzed the existing S. College/SJVR crossing with respect to vehicular travel, bicycle travel, pedestrian pathways and rail traffic and determined that the identified improvements will improve safety. The CPUC approved this project for funding with the estimated cost of \$1.63 million being 100% funded by Federal Section 130 Program. The City Council is being asked to review and approve the proposed design for the crossing improvements at S. College.

OUTSTANDING ISSUES

None.

DISCUSSION

The CPUC staff prepared the Scope of Work for the proposed safety improvements at S. College/SJVR crossing (Attachment 'A'). As detailed in the Scope of Work, the project includes full crossing improvements to improve safety at this crossing including, but not limited, to flashing warning devices, roadway curb and gutter improvements, sidewalk, handrail-type fencing, and additional illumination adjacent to crossing.

A conceptual drawing of the proposed improvements are shown in Attachment 'B' and photographs of the existing condition of the crossing are shown in Attachment 'C'

enclosed hereto.

Should the City accept the project design, the tentative timeline has the project starting around January 2018 and should be completed within one year barring any unforeseen circumstances. Delivery of the project will be administered by Caltrans Division of Rail.

FISCAL IMPACT

The cost of the project totaling \$1.63 million will be 100% funded by the Federal Section 130 Program.

Subject: Resolution No. 2017-32 Accepting 2017 Engineering and Traffic Survey

and Adopting Proposed Speed Limits (RY)

RECOMMENDATION

Council adopt Resolution No. 2017-32 approving the traffic speed limits recommended in the 2017 Engineering and Traffic Survey.

EXECUTIVE SUMMARY

The California Vehicle Code requires that engineering and traffic surveys for speed limits be conduced every five (5) years on streets that are not prima facie (25 mph). The 2017 Engineering and Traffic Survey was completed and includes proposed speed limits for major collectors and arterials. The City Council must adopt the recommended speed limits in order to allow the Police Department to legally issue traffic citations and the courts to enforce said citations.

OUTSTANDING ISSUES

None.

DISCUSSION

The 2017 Engineering and Traffic Survey was completed for the City of Dinuba. The traffic speed data was collected by the Dinuba Police Department and the engineering survey was completed by Yamabe & Horn Engineering. Speed surveys were conducted on the major collector and arterial streets within the City and proposed speed limits are identified in Resolution No. 2017-32 enclosed herein as Attachment 'A'. The major roadways surveyed are as follows:

- 1. Alta Avenue
- 2. El Monte Way
- 3. Englehart Avenue

- 4. Kamm Avenue
- 5. Monte Vista Drive
- 6. Nebraska Avenue
- 7. Saginaw Avenue
- 8. Sierra Way
- 9. Surabian Drive

The 2017 Engineering and Traffic Survey explains the methodology and criteria used to determine the speed zones on each road segment. A full copy of the report is enclosed herein as Attachment 'B'.

FISCAL IMPACT

There is no fiscal impact from approval of this study. The only fiscal impact will be the cost of replacing or adding speed limits signs as indicated herein.

INTRODUCTION

The City of Dinuba Police Department surveyed the prevailing speeds, accident histories, and existing conditions of the roadways in Dinuba. This activity fulfills the minimum requirements of a Engineering and Traffic Survey (E&TS) needed for allowing speed enforcement by radar.

STUDY PROCEDURE

The data collection process was conducted April 2017. The study collected the traffic speed data necessary for speed zone calculation along many of the most heavily traveled roadways in the City of Dinuba. The roadways studies are as follows: Alta Avenue, El Monte Way, Englehart Avenue, Kamm Avenue, Monte Vista Drive, Nebraska Avenue, Saginaw Avenue, Sierra Way (Ave 412) and Surabian Drive.

Data collection was performed by City of Dinuba Police Department staff experienced with the use of radar speed measuring devices and utilizing methods accepted for speed data collection by State and Federal highway guidelines. Radar speed measuring devices were placed in unmarked vehicles at selected locations and motorist's speed data was recorded on speed survey forms. This process was supervised by Chief Devon Popovich of the City of Dinuba Police Department and assisted by City of Dinuba Development and Engineering Services staff.

Roadway conditions and accident records were reviewed during the study. Analyzing these elements and the vehicle speed data identifies the appropriate speed limits and any needed road improvements or traffic control devices.

ESTABLISHING SPEED ZONES

Speed zones should be established using realistic speed zoning principles which aim to:

- 1. Facilitate safe and orderly traffic flow.
- 2. Establish reasonable speed limits.
- 3. Provide an enforcement tool that effectively separates the occasional violator from the reasonable minority.

There are two measurements extracted from the speed survey data that are guideposts for setting reasonable speed limits. The first is the "Critical Speed" (commonly referred to as the 85th Percentile Speed) and the Pace. The Critical Speed is the speed at or below which 85 percent of the observed vehicles were traveling. The "Pace Speed" is the 10 mph increment of speed containing the largest number of vehicles. Normally in an urban roadway the Critical Speed and Pace Speed are within 2 mph of each other.

The setting of speed limits can be controversial and requires a rational and defensible determination to maintain public confidence. Speed limits are normally set near the 85th-

percentile speed that statistically represents one standard deviation above the average speed and establishes the upper limit of what is considered reasonable and prudent. As with most laws, speed limits need to depend on the voluntary compliance of the greater majority of motorists. Speed limits cannot be set arbitrarily low, as this would create violators of the majority of drivers and would not command the respect of the public.

Speed zones (other than statutory speed limits) shall only be established on the basis of an engineering and traffic survey (E&TS) study that has been performed in accordance with traffic engineering practices. The engineering study shall include an analysis of the current speed distribution of free-flowing vehicles.

The Speed Limit (R2-1) signs shall display the limit established by law, ordinance, regulation, or as adopted by the authorized agency based on the engineering study. The speed limits displayed shall be in multiples of 5 mph.

When a speed limit is to be posted, it shall be established at the nearest 5 mph increment of the 85th-percentile speed of free-flowing traffic, except as shown in the two Options below.

- 1. The posted speed may be reduced by 5 mph from the nearest 5 mph increment of the 85th-percentile speed, in compliance with CVC Sections 627 and 22358.5. If the speed limit to be posted has had the 5 mph reduction applied, then an E&TS shall document in writing the conditions and justification for the lower speed limit and be approved by a registered Civil or Traffic Engineer.
- 2. For cases in which the nearest 5 mph increment of the 85th-percentile speed would require a rounding up, then the speed limit may be rounded down to the nearest 5 mph increment below the 85th percentile speed, if no further reduction is used. Refer to CVC Section 21400(b).

The following examples are provided to explain the application of these speed limit criteria:

Example 1. Using Option 1 above and first step is to round down: If the 85th percentile speed in a speed survey for a location was 37 mph, then the speed limit would be established at 35 mph since it is the closest 5 mph increment to the 37 mph speed. As indicated by the option, this 35 mph established speed limit could be reduced by 5 mph to 30 mph if the conditions and justification for using this lower speed limit are documented in the E&TS and approved by a registered Civil or Traffic Engineer.

Example 2. Using Option 1 above and first step is to round up: If the 85th percentile speed in a speed survey for a location was 33 mph, then the speed limit would be established at 35 mph since it is the closest 5 mph increment to the 33 mph speed. As indicated by the option, this 35 mph speed limit could be reduced by 5 mph to 30 mph if the conditions and justification for using this lower speed limit are documented in the E&TS and approved by a registered Civil or Traffic Engineer.

Example 3. Using Option 2 above and first step is to round up: If the 85th percentile speed in a speed survey for a location was 33 mph, instead of rounding up to 35mph, the speed limit can be established at 30mph, but no further reductions can be applied (which is allowed in the two examples above).

<u>DATA</u>

Attached datasheets summarize the speed data results including 85th percentile speeds and the 10 mile-per-hour Pace. Current speed limits set significantly below what is indicated from the survey without E&TS justification are considered unreasonable and therefore not enforceable using radar.

Correctly established speed limits would increase driver compliance and more clearly identify unreasonable motorists who are subject to enforcement action.

<u>RECOMMENDED SPEED LIMITS</u> (Based upon 85th percentile/critical speed; asterisks denote revisions due to engineering considerations as noted):

ADDITIONAL RECOMMENDATIONS

Along with adjusting the speed limits appropriately as indicated by information gathered from the speed surveys, accident history and other field conditions, the following practices are being highly recommended:

- 1. Increase the educational focus of the police department's traffic efforts by deploying the City's speed controller display device.
- 2. Inspect traffic control devices regularly. This inspection should include signs, pavement markings, and traffic signals.
- 3. Include night time inspection for reflectivity of traffic control devices and assure adequate safety lighting.
- 4. Eliminate visibility obstructions due to foliage by trimming grass, brush, trees, etc. Routinely inspect city streets and trim or remove obstructions as necessary.

CONCLUSION

This E&TS report verifies or establishes recommended speed zones to the benefit of all roadway users in the City of Dinuba. Speed zones are established to better reflect existing safe travel speeds. City staff and law enforcement should continually review traffic operations in Dinuba to:

- 1. Identify needed intersection and non-intersection roadway improvements.
- 2. Monitor accident trends.
- 3. Periodically review speed zoning.
- 4. Pursue educational and training opportunities.

City Council Staff Report

Department: PUBLIC WORKS June 13, 2017

To: Mayor and City Council

From: Blanca Beltran, Public Works Director

Subject: Resolution No. 2017-31 Measure R Expenditure Plan Amendment No. 4

BB)

RECOMMENDATION

Council adopt Resolution No. 2017-31 supporting Amendment No. 4 to the Measure R Expenditure Plan.

EXECUTIVE SUMMARY

On May 15, 2017, the board of the Tulare County Transportation Authority (TCTA) took action to allow for submittal of Amendment No. 4 for member agency consideration and approval. The proposed amendment includes three (3) requested changes to the Measure R Expenditure Plan: 1) delete the N. Grand/SR-65 project and redirect \$20 million to the City of Porterville's Bike/Ped Project Fund; 2) create \$2 million Bike/Ped Fund for the City of Woodlake; and 3) add flexibility to Air Quality Program. Approval by a majority of the cities representing a majority of the population along with approval by the Tulare County Board of Supervisors is required for approval of amendments to the Measure R Expenditure Plan.

OUTSTANDING ISSUES

None.

DISCUSSION

On November 7, 2006, Tulare County voters approved a 1/2 Cent Transportation Sales Tax Measure for transportation improvements in Tulare County. An Expenditure Plan was developed by the Tulare County Association of Governments (TCAG) and nine member agencies (Dinuba, Exeter, Farmersville, Lindsay, Porterville, Tulare, Visalia, Woodlake, and the County of Tulare) to guide more than \$652 million in transportation fund expenditures generated through the approval of a transportation sales tax over the next 30 years.

The Expenditure Plan provides a detailed blueprint that allows for leveraging of state and federal funds through the revenues received through Measure R. The Plan provides funds for regional road improvements, public transit, rehabilitation of existing roads, and other transportation programs that improve mobility and air quality within the County and each of the cities. For example, the City of Dinuba used Measure R funds for the Alta Avenue/Road 80 Widening, Alta/El Monte Way intersection expansion, W. El Monte Way Widening, 2007 City-Wide Street Improvements, Dinuba/Reedley Connection, and other bike, ADA, and transit projects.

The TCTA Board may annually review and propose amendments to the Expenditure Plan to provide for the use of additional Federal, State, and local funds, to account for unexpected revenues, or to take into consideration unforeseen circumstances. In order to react to changes in funding and/or priorities, an amendment to the plan can be proposed. The Measure R Expenditure Plan has been amended three times since its passage.

On May 15, 2017, action was taken by the TCTA to allow for the submittal of the fourth Measure R Expenditure Plan amendment to member agencies for their consideration and approval. The proposed amendments include three changes to the Expenditure plan, which are detailed in Exhibit 'A' to the Resolution enclosed herein as Attachment 'A' and summarized as follows:

- 1. delete the N. Grand/SR-65 project and redirect \$20 million to the City of Porterville's Bike/Ped Project Fund; and
- 2. create \$2 million Bike/Ped Fund for the City of Woodlake; and
- 3. add flexibility to Air Quality Program.

These amendments have been vetted and are recommended for approval by the City Managers of member agencies as well as member agency staff sitting as the Technical Advisory Committee to the TCTA. Staff supports Amendment No. 4 as they increase the potential for additional regional projects, provide flexibility for new projects and will not have any negative impacts to the City of Dinuba.

Approval by a majority of the cities with a majority of the population along with the approval of the Tulare County Board of Supervisors is required for the approval of Amendment No. 4 to the Measure R Expenditure Plan.

FISCAL IMPACT

There is no fiscal impact to the City of Dinuba. Approval of Amendment #4 creates in regional funds category for construction of currently identified Measure R regional projects.

SUBJECT: Summary of Measure R Expenditure Plan Amendment Four (4) Requests Approved by TCTA Board on May 15, 2017 for Agency Consideration

1. Request: Delete the N. Grand/SR-65 project in the amount of \$20 million and add \$20 million to the existing the City of Porterville's Bike/Ped Project fund.

Requesting Agency: City of Porterville

Discussion: Caltrans indicated that the SR-65/Grand Avenue interchange will not be necessary during the 30 year life of the Measure R. This combined with the financial cost of improving the abandoned rail corridor and the bike/pedestrian corridors, provides an opportunity to shift funding and better serve the residents of the City of Porterville. Opportunities to leverage bike/pedestrian funding over the next ten years will be improved and state funding for regional projects has declined. Reducing the overall need for Measure R regional funding helps with achieving construction of the regional projects currently identified in the Measure R Expenditure Plan.

TCAG Staff Recommendation: Support the amendment with the condition the additional bike/pedestrian funding cannot be accessed prior to Fiscal year 19/20.

City Manager Recommendation: Support

2. Request: Create a \$2 million Bike/Ped Fund for the City of Woodlake

Requesting Agencies: City of Woodlake

Discussion: A review of the overall Measure R regional projects for the small cities of Exeter, Farmersville, and Lindsay, indicate a minimum of \$5 million worth of projects planned or under construction. Further review of the Measure R Regional Projects Program shows projects located throughout the County and in every city except the City of Woodlake. Adding a Regional Project to the City of Woodlake would be a financial challenge for Measure R, therefore, the City of Woodlake requests \$2 million for Bike/Ped improvements. With the passage of Proposition 1B there will be more funding to leverage for Bike/Ped projects vs. capacity increasing projects.

City Manager Recommendation: Support

3. Request: Add flexibility to the Air Quality Program

Requesting Agencies: All Member agencies

Discussion: All agencies have a need for funding flexibility. As new or revised funding sources occur, there is a need to have Measure R be flexible to take advantage of leveraging opportunities."

The following language is proposed as an amendment to the Measure R Expenditure Plan as Note 24:

"Member agencies with transit service expansion funding in the Expenditure Plan (pages 10 & 11) may replace the service expansion funding with additional state or federal funding. The amount replaced can be used for new or existing Air Quality projects. The agency must submit an annual report that demonstrates the service expansion implemented prior to this Amendment has been maintained. Replacement funding will not be released without a Council/Board approved plan for expenditure of the replaced transit funds, and must be submitted to TCAG prior to approval for expenditure of said funds on Air Quality project(s). A Council/Board may approve up to a five year plan for replacement projects and combine years of estimated funding as necessary."

TCAG Staff Recommendation: Support the amendment with a start date of fiscal year 2018/19 and the Measure R Policies and Procedures will be amended by December 31, 2017.
