

City Council Special Meeting

January 24, 2017
MINUTES

COUNCIL MEMBERS PRESENT:

Reynosa, Launer, Harness, Thusu

COUNCIL MEMBERS ABSENT:

Morales

STAFF MEMBERS PRESENT:

Barkley, Beltran, Hurtado, James, Jenner, Patlan, Popovich. Sanchez, Thompson

1. OPENING CEREMONIES

1.1. Welcome and Call to Order

The meeting was called to order at 5:31 pm.

2. AGENDA CHANGES OR DELETIONS

To better accommodate members of the public or convenience in the order of presentation, items on the agenda may not be presented or acted upon in the order listed. Additions to Agenda may be added only pursuant to California Government Code section 54956.8.

None.

3. REQUEST TO ADDRESS COUNCIL

This portion of the meeting is reserved for any person who would like to address the Council on any item that is not on the agenda. Please be advised that State law does not allow the City Council to discuss or take any action on any issue not on the agenda. The City Council may direct staff to follow up on such item(s). Speakers may be limited to three (3) minutes. If there is any person wishing to address the City Council at this time please approach the podium and state your name and nature of the request.

None.

Matters listed under the Consent Calendar are considered routine and will be enacted by one motion and one vote. There will be no separate discussion of these items. If discussion is desired, a member of the audience or a Council Member may request an item be removed from the Consent Calendar and it will be considered separately.

4. DEPARTMENT REPORTS

4.1. SUBJECT

Annual Audit Report Fiscal Year 2015-2016

RECOMMENDATION

Council to accept the Independent Auditor's Report for the Fiscal Year 2015-16.

Auditor Ben Zeng with Moss, Levy and Hartzheim presented highlights of the City's 2015-16 Comprehensive Annual Financial Report to the Council.

A motion was made by Vice Mayor Thusu, second by Council Member Launer, to accept the Fiscal Year 2015-16 Comprehensive Annual Financial Report as presented.

Ayes: Harness, Launer, Reynosa, Thusu

Absent: Morales

5. CITY MANAGER COMMUNICATIONS

None.

6. ADJOURNMENT

The meeting adjourned at 5:41 pm.

City Council Staff Report

Department: FINANCE SERVICES

January 24, 2017

To: Mayor and City Council

From: Carlos Sanchez, Interim Finance Director

Subject: Annual Audit Report Fiscal Year 2015-2016

RECOMMENDATION

Council to accept the Independent Auditor's Report for the Fiscal Year 2015-16.

EXECUTIVE SUMMARY

Moss, Levy and Hartzeim, LLP certified public account is the City's Independent Auditor will be presenting the independent audit report for the Fiscal Year 2015-2016 based on the Comprehensive Annual Financial Report (CAFR) ('Attachment A').

OUTSTANDING ISSUES

None.

DISCUSSION

Audit report will be presented by Moss, Levy and Hartzheim, LLP.

FISCAL IMPACT

None.

PUBLIC HEARING

None.

December 20, 2016

To the Honorable Mayor, City Council and Citizens of the City of Dinuba:

The Comprehensive Annual Financial Report (CAFR) of the City of Dinuba, for the fiscal year ended June 30, 2016, is hereby submitted as mandated by both local ordinances and state statutes. These ordinances and statutes require that the City of Dinuba issue annually a report on its financial position and activity, and that this report be audited by an independent firm of certified public accountants. The accounting firm of Moss, Levy, & Hartzheim, LLP of Beverly Hills, California, was retained by the City to perform the audit of financial records for the fiscal year ended June 30, 2016. The audit was designed to meet the requirements of the federal Single Audit Act of 1984, as amended and related OMB Circular A-133. The auditors report on the fair presentation of the financial statements, the internal controls, and compliance with legal requirements and have issued an unqualified ("clean") opinion on Dinuba's financial statements.

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with management. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner that presents fairly the financial position and results of operations of the various funds and component units of the City. All disclosures necessary to enable the reader to gain an understanding of the City's activities have been included.

Management's discussion and analysis (MD&A) follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Government Profile

The financial reporting entity (the government) includes all the funds of the primary government (i.e., the City of Dinuba as legally defined), as well as all of its component units. Component units are legally separate entities for which the primary government is financially accountable. Blended component units, although legally separate entities, are, in substance, part of the primary government's operations and are included as part of the primary government; the Dinuba Financing Authority qualifies as a blended component unit in this regard. City Council members serve as the governing board of the Authority, and the City Manager also serves as the Executive Director of the Authority.

The City of Dinuba is situated in the northern part of Tulare County, near the Fresno County line. Roughly 180 miles north of Los Angeles and 200 miles south of San Francisco, the City lies in the heart of California's agriculturally-rich San Joaquin Valley, near the Sierra Nevada Mountain Range. It is the service center for a large farming area that extends into both Tulare and Fresno Counties.

Dinuba was established in 1888 with the coming of the railroad and was incorporated in 1906. Because of Dinuba's rich agricultural area, it grew quickly into a thriving community as people from outlying areas moved closer to the railroad shipping area. Since its founding, Dinuba has had consistent growth, increasing from 970 persons in 1910 to a 2016 population of 24,657. Among the eight incorporated cities of Tulare County, Dinuba ranks fourth in population.

The City, until 1994, operated under the General Laws of the State of California. A City Charter was adopted by the voters on June 4, 1994, and by the Secretary of State on July 7, 1994. The Charter gives the City government greater latitude in carrying out its operations and enables the City to operate more efficiently.

Springtime in Dinuba is filled with the fragrance of blossoms from the surrounding orchards. Dinuba's warm summer days bring forth the abundance of produce that keeps the packing houses and shippers busy during the summer months. Mild temperatures year-round enhance the dairy industry in the surrounding area as well.

The Dinuba area is one of the San Joaquin Valley's most productive agricultural spots. The variety of crops includes cotton, nuts, vegetables, and fruits, such as grapes, raisins, plums, peaches, nectarines, and citrus. Raisins are a major product in the Dinuba area, where 40 percent of the world's raisins are grown and dried, a total of approximately 300,000 tons annually. Table grapes and wine are also major products. The City of Dinuba is in Tulare County; a table in the Statistical Section lists the major crops raised in Tulare County and the gross value of the crops in the previous calendar year.

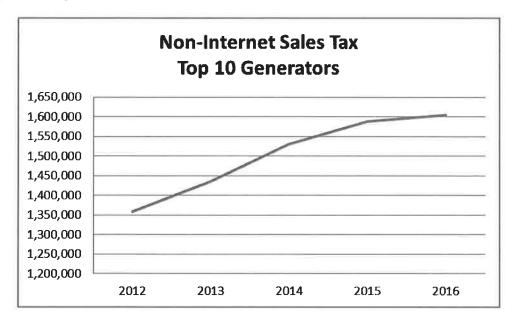

Although agriculture is Dinuba's predominant activity, the community has had a modest commercial and industrial base for many years. Dinuba is home to the headquarters of Ruiz Food Products, Incorporated, which prepares frozen Mexican foods and distributes them worldwide. It is also home to the West Coast Distribution Facility for Best Buy, Inc. and Patterson Logistics, Inc. This concentration of employers attracts more residents which in turn draws additional commercial businesses. This has been evidenced through continued strength of the building sector in Dinuba. Because of its unparalleled agricultural base and its expanding industrial site, Dinuba is a community with a progressive and diverse economy.

The City has a Council-Manager form of government. There are five Council members who serve overlapping terms of four years and the Council in turn elects one of the Council members to serve as the Mayor for a term of two years. The Council engages a City Manager and a City Attorney. The Manager is the chief executive officer of the City, and it is the City Manager's responsibility to hire department managers for each of the City functions. Such person also proposes the annual budgets, coordinates and oversees all activities of the organization, and implements the policies, budgets, and laws adopted by the City Council. The Dinuba Redevelopment Agency was created on June 12, 1984, by an Ordinance of the City Council, pursuant to the California Community Redevelopment Law. With the dissolution of redevelopment agencies by the state, the City Council has assumed the role of the board to the Successor Agency of the City of Dinuba.

Local Economy

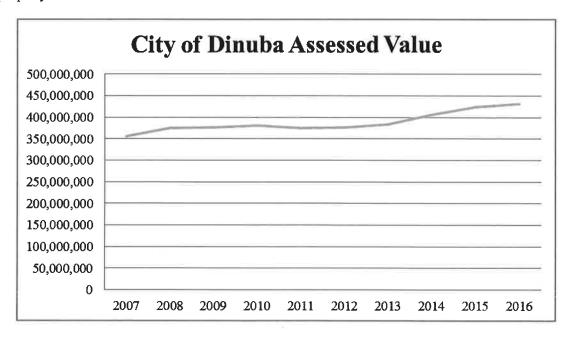

The economic climate in Dinuba continues to improve. Over the past 5 years sales tax from the top 10 non-Internet businesses grew from approximately \$1,350,000 to approximately \$1,600,000. During the past year non-Internet sales tax from the same sources grew by 1%.

In 2016, 689 building permits were issued compared to 552 issued in 2015. While commercial permits remained unchanged, residential permits decreased over the previous year. Overall total permit evaluations decreased from \$14.6 million to \$7.1 million in 2016. It is anticipated that work will begin on a residential development surrounding the City's golf course. Currently it is anticipated that the development will include over 100 lots. The development will be gated and comprised of higher-end homes.

West El Monte Way continues to be attractive for further commercial development. In fiscal year 2016 Farm Credit West and Western Dental and Orthodontics were opened.

After years of stagnant growth in assessed values, property values saw an uptick in fiscal year 2016. The continued growth in new residential and commercial permits is finally impacting the assessed values. Traditionally, it has taken a couple of years for new development to affect the property tax rolls.

Current Major Initiatives

Several major projects are underway in the City of Dinuba.

The City and the County are moving forward on the widening of El Monte Way/Avenue 416. The widening runs the length of the City and will be completed in two phases. The first Phase will widen El Monte Way/Avenue 416 from Road 56 to Alta Avenue/Road 80; the second Phase will begin east of the intersection of Alta Avenue/Road 80 and continue widening to Road 92.

Phase 1 design and rights-of-way acquisition were completed in the summer of 2013 with construction beginning in 2014. Funding for the first Phase will be from Measure R, the County-wide add-on sales tax for transportation projects with supplemental State funds from the State and Local Partnership Program (SLPP) and local funds. The second Phase has not been programmed by TCAG for funding at this time. The City is exploring the possibility of introducing two Roundabouts into the second Phase which could reduce rights-of-way impacts/costs and be financed with CMAQ funds.

In fiscal year 2014 work began on the second phase to the expansion of the City's CNG fueling station, which will be completed in the fall of 2016. The City's existing CNG facility was completed in 2005 and was subsequently expanded in the summer of 2012. The second expansion includes a third natural gas compressor as well as an additional ten slow fill stations, which will allow all City transit buses to be completely fueled overnight.

In fiscal year 2015 work began to update the WWRF 2007 Preliminary Design Report (PDR), which will be completed in the fall of 2016. The PDR provides final recommendations and estimated costs for the expansion of the WWRF from its current capacity of 3 MGD to 4 MGD. This planned expansion will require a new Waste Discharge Permit (which has been anticipated regardless of an expansion project due to the 1995 issuance date of the current Permit) from the State. The City will apply for a low-interest loan from the State, including a request for consideration for partial principal waiver (grant) based upon possible Disadvantaged Community (DAC) status.

In fiscal year 2017, the design of Fire Station No. 2 will continue with completion expected in late 2016. Construction is anticipated to begin in March 2017.

Financial Information

It is recognized that City management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. This should provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation costs and benefits require estimates and judgments by management.

As a recipient of federal, state, and local financial assistance, the City also is responsible for ensuring that an adequate internal control structure is in place to ensure and document compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management.

The City maintains budgetary controls with the objective of ensuring compliance with legal provision embodied in the annual appropriated budget approved by the City Council. Activities of most funds are included in the annual appropriated budget and both revenues and expenses are categorized into either recurring or one-time. Project-length financial plans are adopted for long-term capital projects in a five-year Capital Improvement Plan. As a component of capital projects future operating costs are analyzed and projected and then incorporated into future budget forecasts.

Budgets are prepared for the individual departments within specific funds as management control devices, but the level of budgetary control (i.e., the level at which expenditures cannot legally exceed the appropriated amount) remains at the fund level. The City also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts lapse at year end. However, encumbrances outstanding at the year end are generally reappropriated as part of the following year's budget.

As demonstrated by the statements and schedules included in the financial section of this report, the City of Dinuba continues to meet its responsibility for sound financial management. For further analysis of the City's financial position, please refer to the Management Discussion and Analysis report in the Financial Section.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Dinuba for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2015. This was the twenty-third consecutive year that the City has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgements

The preparation, cooperation, and assistance of the Finance Department and the auditing firm of Moss, Levy, & Hartzheim, LLP is greatly appreciated in the publication of this document. The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire finance staff. We also thank the Dinuba City Council for their dedicated service in guiding and directing the management of the City of Dinuba.

Respectfully Submitted,

Carlos Sanchez

INDEPENDENT AUDITOR'S REPORT

To the Members of the City Council City of Dinuba, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Dinuba, California as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Dinuba, California, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof, for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Change in Accounting Principles

As discussed in note 1 of the notes to the basic financial statements effective July 1, 2015, the City adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 72, Fair Value Measurement and Application and Statement No. 73, Accounting and Reporting for Pensions and Related Assets not within the Scope of GASB 68 and Amendments to GASB 67 and 68. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis, budgetary comparison schedules for the General and major special revenue funds, Schedule of Changes in the Net Pension Liability and Related Ratios, Schedule of Pension Contributions, and Schedule of Funding Progress for Retiree Health Plan on pages 13 through 26 and 97 through 104 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Dinuba's basic financial statements. The introductory section, governmental and enterprise combining and individual non-major fund information, internal service, major capital project fund budgetary comparison schedule, major debt service fund budgetary comparison schedule and fiduciary fund financial statements and schedules, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The governmental and enterprise combining and individual non-major fund information, internal service, major capital project fund budgetary comparison schedule, major debt service fund budgetary comparison schedule and fiduciary fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the governmental and enterprise combining and individual non-major fund information, internal service, major capital project fund budgetary comparison schedule, major debt service fund budgetary comparison schedule and fiduciary fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 21, 2016, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control over financial reporting and compliance.

Management's Discussion and Analysis Fiscal Year Ended June 30, 2016

This management's discussion and analysis provides an overview of financial activities of the City of Dinuba (City) for the fiscal year ended June 30, 2016. Please read this discussion and analysis in conjunction with the accompanying transmittal letter, the basic financial statements, and the accompanying notes to the basic financial statements.

FINANCIAL HIGHLIGHTS

City-Wide

- City total assets increased by \$9 million to \$308.6 million, of which \$236.8 million represented governmental assets and \$71.8 million represented business-type assets.
- City total liabilities increased by \$0.6 million to \$72.8 million, of which \$50 million were governmental liabilities and \$21.8 million were business-type liabilities.
- The City's total net position increased by \$9.6 million to \$238.4 million.
- City-wide revenues were \$55.1 million, of which \$37.3 million were generated by governmental activities and \$17.8 were generated by business-type activities.
- City-wide expenses were \$46.5 million, of which \$29.8 million were incurred by governmental activities and \$17.1 were incurred by business-type activities.

Fund Level

- Governmental Fund balances decreased \$2.6 million to \$21.6 million. Of this amount \$0.5 million was unassigned fund balance and available for spending at the City's discretion.
- Governmental Fund revenues were \$30 million, an increase of \$0.6 million from the previous year.
- Governmental Fund expenditures decreased by \$1.4 million to \$32.8 million in fiscal year 2016.
- Enterprise net position increased by \$1.1 million to \$51.5 million. Of this amount, \$5.0 million was unrestricted net position and available for spending at the City's discretion.
- Enterprise Fund operating revenues remained at \$13.4 million compared to the previous fiscal year.
- Enterprise Fund operating expenses were \$16.0 million in fiscal year 2016, an increase of \$2.7 million compared to the previous fiscal year.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

The Comprehensive Annual Financial Report is composed of the following:

- 1. Introductory section, including the Transmittal Letter
- 2. Management's Discussion and Analysis
- 3. Basic Financial Statements, which include the Government-wide and the Fund financial statements
- 4. Notes to the financial statements
- 5. Combining statements for Non-Major Governmental, Internal Service and Fiduciary Funds
- 6. Statistical information

Basic Financial Statements

The Basic Financial Statements consist of the City-wide Financial Statements and the Fund Financial Statements. These two sets of financial statements provide a short-term view as well as a long-term view.

The City-wide Financial Statements are designed to provide a broad overview of all of the City's finances taken as a whole, using a long-term view, in a manner similar to private-sector businesses. The City-wide Financial Statements consist of the Statement of Net Position and the Statement of Activities.

The Statement of Net Position provides information about the financial position of the City as a whole, including all of its capital assets, liabilities and long-term liabilities with the difference between the two reported as net position. The full accrual basis of accounting is used, thus the flow of all economic resources are measured.

The Statement of Activities presents financial information reporting how the City's net position changed during the fiscal year by listing the revenues and expenses of each of the City's major activities. The full accrual basis of accounting is also used, thereby all changes to net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus revenues and expenses are reported in this statement for some items that will result in cash flows in a future fiscal period.

The fund financial statements report the City's operations in more detail than the City-wide statement and focus primarily on the sort-term activities of the City's General Fund and other Major Funds. The Fund Financial Statements measure only current revenues and expenditures, current, assets, liabilities and fund balances; they exclude capital assets, long-term debt and other long-term amounts.

City-wide Financial Statements

All of the City's activities are grouped into either Governmental Activities or into Business-type Activities. Governmental Activities are those functions that are principally supported by taxes or by specific governmental program revenues such as developer fees. Business Activities are those serves supported by charges paid by direct users of the service such as Disposal collection.

City-wide financial statements are prepared on the accrual basis, which means they measure the flow of all economic resources of the City as a whole.

Fund Financial Statements

The fund financial statements are designed to report information about related accounts that have been segregated for specific activities or objectives. The City uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the City's funds are divided into three categories: governmental funds, proprietary funds and fiduciary funds.

The Fund Financial Statements provide detailed information about each of the City's most significant funds called Major Funds. Major Funds account for the major financial activities of the City and are presented individually, while the activities of the Non-major funds are presented in summary as Other Governmental Funds. Subordinate schedules of the Non-major funds present detailed financial information of the City's smaller funds.

Governmental Funds

Most of the City's basic services are reported in governmental funds. These funds focus on reporting the flow of money into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become measurable and available). "Measurable" means that the amount of the transaction can be determined and "available" means that it is collectible within the current period or soon enough thereafter to be used.

The governmental fund financial statements provide a detailed short-term view of the City's general government operations and the basic services provided. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. The differences between the Governmental Fund Financial Statements and the Government-Wide Financial Statements are explained in a reconciliation following the Governmental Funds' Financial Statements.

Proprietary Funds

When the City charges customers for services - whether to outside customers or to programs of the City - these services are generally reported in proprietary funds. Proprietary funds are reported in the same way in that all activities are reported in the Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Fund Net Position. The City's enterprise funds are the same as the business-type activities reported in the Government-Wide Financial Statements, but provide more detail and additional information, such as cash flows for each enterprise fund. The City also uses internal service funds to report activities that provide supplies and services for the City's internal program and activities, such as the City's self-insurance.

Fiduciary Funds

The City is the trustee, or fiduciary, for certain funds established to account for assets held by the City in a trustee capacity, or as an agent for individuals, private organizations, and other governmental units. The City's fiduciary activities are reported in separate Statements of Fiduciary Net Position. These activities are excluded from the City's Government-Wide Financial Statements because the City cannot use these assets to finance its operations. The City is responsible for ensuring that the assets reported in these funds are used for their specified purposes.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statement can be found following the fund financial statements in this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The net position and changes in net position of the City's Governmental Activities (Tables 1 and 2) and Business-Type Activities (Tables 3 and 4) are presented in the City-wide Statement of Net Position and Statement of Activities.

Total net position	186,983	178,585	8,398				

Net Position

As shown in Table 1, the City's governmental Total Net Position is \$187 million. During fiscal year 2016, the overall net position increased by \$8.4 million, or 4.7%. During fiscal year 2015, the City implemented GASB 68 & 71, which required the recording of net pension liability and pension related deferred inflows and outflows.

The largest portion of the City's net position, approximately \$160.7 million, reflects its investment in capital assets (e.g., land, buildings, improvements other than buildings, equipment, infrastructure, and construction in progress); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves rarely are used to liquidate these liabilities.

Resources that are subject to restriction that may only be used to construct specified capital projects, debt service or other special revenue programs represent 18.3% of the City's Governmental Net Position. These are external restrictions and cannot be changed by the City.

Unrestricted net position can be used to finance day-to-day operation without constraints. Due to the restrictions mentioned about and the implementation GASB 68 & 71, the unrestricted net position was (\$9.7) million at year end.

Changes in Net Position

The Statement of Activities provides information regarding the entirety of the City's governmental revenues and expenses. The Statement describes in detail the changes in net position from the previous year.

The City's Governmental Net Position increased by \$8.4 million in fiscal year 2016. Revenues increased \$3.4 million and expenses increased by \$2.6 million. The increase in revenues is primarily due to an increase in capital contributions and grants.

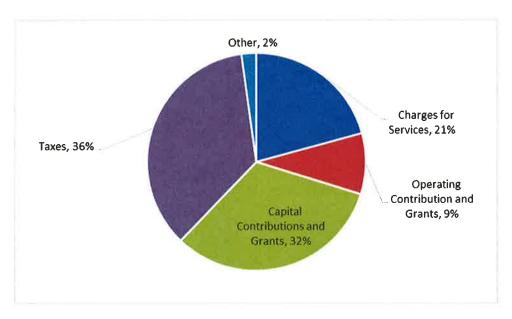

While total revenues increased from the previous year, tax revenues increased by \$1.3 million. Property tax revenue comprised \$0.4 million with the largest increase being other revenue which includes Franchise Tax and Transient Occupancy Taxes. The increase in property tax revenues is due to continued building within the City as well as the winding down of the redevelopment obligations.

The rise in Governmental expenses was primarily focused in the public safety functions of the City. In 2015-16 personnel costs increased due to a new Police Officer and converting a part-time Evidence Technician to a full-time position. Additionally capital expenses included costs associated with the Police Station improvements and an Animal Control truck and module.

The following charts display the City's governmental activities for fiscal year 2016, highlighting the makeup of the governmental revenues and expenses.

Revenues by Source Governmental Activities

Expenses by Function Governmental Activities

Business Type Activities

The statement of Business-Type Net Position (Table 3) and statement of Business-Type Activities (Table 4) are presented below.

Net Position

The business-type activities of the City showed a minor increase \$0.6 million in total assets. Of the total net position, 90.9% was net investment in capital assets and 9.1% percent was unrestricted, which was available for future operations.

	Table 3	***

Changes in Net Position

As shown in Table 4, net revenues for business-type activities were \$17.7 million in fiscal year 2016, an increase of \$2.7 million over the prior year. The increase was primarily attributable to growth in operating grants in the Transit Fund.

Expenses for business-type activities increased by \$1 million compared to the previous fiscal year. The primary growth in expenses came from costs associated with the maintenance and depreciation of the transit fleet.

FINANCIAL ANALYSIS OF CITY'S MAJOR FUNDS

Table 5 summarizes the Governmental balances at the fund level.

Table 5						
Financial Highlights at Fund Level at June 30, 2016 and 2015						
(in T	Thous ands)					
	FY 2016	FY 2015	Change			
Total Assets	51,076	52,692	(1,615)			
Total Liabilities	5,484	5,317	167			
Total Fund Balances	21,632	24,236	(2,604)			
Total Revenues	30,000	29,383	617			
Total Expenditures	32,821	34,205	(1,384)			
Total Other Financing Sources (Uses)	1,178	60	1,118			

General Fund

The General Fund accounts for all financial resources traditionally associated with government activities that are not accounted for reported in another fund.

Fund balance in the General Fund decreased by 13.2% to end the fiscal year at a balance of \$4.3 million. The decrease can be attributed to a redevelopment agency dissolution settlement of 1.0 million.

The final budget amount for General Fund expenditures totaled \$13.3 million excluding transfers out. In comparison, actual expenditures excluding transfers out totaled \$13 million. The variance in expenditures was \$0.3 million. Total revenues were budgeted at \$13.2 million; actual revenues in the General Fund were \$14.6 million. The variance was due to an increase in service charges.

Other Major Funds

HUD Grants

The fund accounts for the Community Development Block Grants (CDBG) and Home Investment Partnership Program (HOME). The fund's assets include \$20.3 million in notes and loans receivable. The loans are offset by unearned revenue as the loans are not expected to be repaid within the next year. The notes and loans receivable are for housing acquisition assistance and housing rehabilitation.

Activity on housing remained virtually the same compared to the previous year as evidenced by the slight decrease in expenditures from the previous year by \$0.3 million.

Public Safety Sales Tax

Fund balance decreased by \$0.5 million in the 2016 fiscal year. The decrease was due to costs associated with the completion of the Emergency Operations Center.

Transportation Construction:

Revenue in the Transportation Construction fund came to nearly \$6.6 million. The revenue is primarily composed of intergovernmental revenues originating with the Tulare County Association of Governments for the purpose of expanding the road widening project along Avenue 416.

Financing Authority:

The Fund Balance in the Financing Authority fund remained almost the same as last fiscal year. It increased slightly by \$0.2 million to \$1.5 million in 2016. The increase came as a result of transfer debt proceeds to the Financing Authority fund.

General Construction:

The construction of the Emergency Operations Center and the transit building comprised most of the expenditures in the General Construction fund. The Public Safety Sales Tax paid for most of the work on the Emergency Operations Center.

Other Governmental Funds:

These funds (referred to a Non-major Funds) are not presented separately in the Basic Financial Statements, but are individually presented in Supplementary Information. Combined they received \$3.9 million in revenue and have a combined Fund Balance at year-end of \$13.8 million.

Business-Type Funds

The business-type funds account for operations that are financed and operated in a manner similar to private business enterprises, wherein the cost of goods and services to the general public are financed or recovered primarily through user charges. Prior year adjustments including pension liabilities totaled \$.14 million in the enterprise funds. Other than the Golf Fund which is managed by an outside contractor the remaining major enterprise funds were affected by the adjustment.

Water

The net position in the water fund decreased by \$0.7 million to \$11.3 million. The unrestricted portion of the net position totaled \$1.5 million. Water conservation efforts resulted in a slight decrease in service charges. Operating expenses were held to prior year levels and the fund was able to cover depreciation costs.

Sewer

The sewer fund ended the year with a net position of \$11.0 million of which \$1 million was unrestricted. Operating revenues exceeded operating expenses by \$0.8 million. After accounting for interest expense on long-term debt, the funds net position decreased by \$0.4 million.

Disposal

Operating revenues and expenses were virtually flat when compared to the previous fiscal year. The fund ended the year with a net position of \$1.4 million of which \$0.9 million was unrestricted.

Ambulance

In 2016, the City participated in the Inter-governmental Transfer funding provided by the State and as a result the revenue increased from \$1.3 to \$2.9 million in 2016. As of June 30, 2016 the fund had net position of 1.4 million.

Golf Course

Operating revenues and operating expenses remained fairly constant as compared to the previous fiscal year. Operating expenses increased by \$0.1 million from the prior year. The revenues in the Golf Fund are sufficient to cover ongoing operating expenses outside of depreciation. However, the fund is not currently able to set aside funds for capital replacement. The net position of the Golf Course at the end of the fiscal year was \$23.9 million.

CAPITAL ASSETS

......

A summary of the City's capital assets is shown below in Table 6. More detail regarding the assets can be found in Note 7 of the financial statements.

Table 6 Capital Assets Net of Accumulated Depreciation at June 30										
(in Thousands)										
		FY 2016	FY 2015	Change						
Governmental Activities										
Land		111,621	109,504	2,117						
Artwork		69	69							
Construction in Progress		23,709	13,336	10,373

	Total	63,023	64,356	(1,334)						
Intrastructure	Total	With the second second		,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,						

The net increase of \$10.2 million for governmental activity assets is comprised of the construction in progress which is for the Ave 416 expansion, the Compressed Natural Gas expansion project, and the Transit Center addition.

The net decrease of \$1.3 million for business-type activity assets is made up of accumulated depreciation offset by the addition of \$1.6 million worth of assets attributable to the completion of the Transit Center.

For Government-wide Financial Statements, capital asset purchases for governmental activities are capitalized and depreciated. In contrast, in the Fund Financial Statements capital asset purchases for governmental activities are recorded as expenditures. More information concerning the City's investment in capital assets is available in Note 7 in the Notes to Basic Financial Statements section later in this document.

DEBT ADMINISTRATION

Each of the debt is discussed in more detail in Note 8 to the financial statements.

The City's total long-term debt increased by \$2.0 million compared to the prior fiscal year. The increase was primarily due to the Notes and Capital Leases payable.

Additionally, because the City is on a pay-as-you-go basis, the retiree health obligation increased by \$1.3 million.

The following table provides a breakdown of the City's outstanding indebtedness as of June 30, 2016:

	Tab	le 7	7						
Outstanding Debt (in Thousands)

BUDGETING

memmananani

The City's annual budget is the legally adopted expenditure control document of the City. Budgetary comparison statements are required for the General Fund and all major special revenue funds and may be found immediately following the Government-wide financial

statements in this Financial Section of the CAFR. These statements compare the original adopted budget, the budget as amended throughout the fiscal year, and the actual expenditures for each fund, prepared on a budgetary basis. Budgets are prepared on the modified accrual basis of accounting consistent with GAAP, except that encumbrances are included in budgeted expenditures.

Appropriations lapse at fiscal year-end. The City Council generally reauthorizes appropriations for continuing projects and activities. The City Council has the legal authority to amend the budget of any fund at any time during the fiscal year. The budgetary legal level of control (the level on which expenditures may not legally exceed appropriations) is generally at the fund level. For budgeting purposes, the General Fund is composed of several departments while all other budgeted funds (special revenue funds included) are considered a single department. Budgeted expenditures may be reallocated within a division and between divisions within a department without City Council approval.

ECONOMIC OUTLOOK

Based upon sales tax revenues, it appears that the local business climate continues to improve. Excluding revenues from the Internet Sales Tax, sales tax from the top 10 sources increased by 1% from fiscal year 2015 to 2016; however, the local K-mart is scheduled to close in July 2016. The impact on the sales tax is not anticipated to be significant, as the sales will most likely be made at the local Wal-Mart and other local retail locations. Additionally online sales tax is anticipated to be significantly higher in 2017.

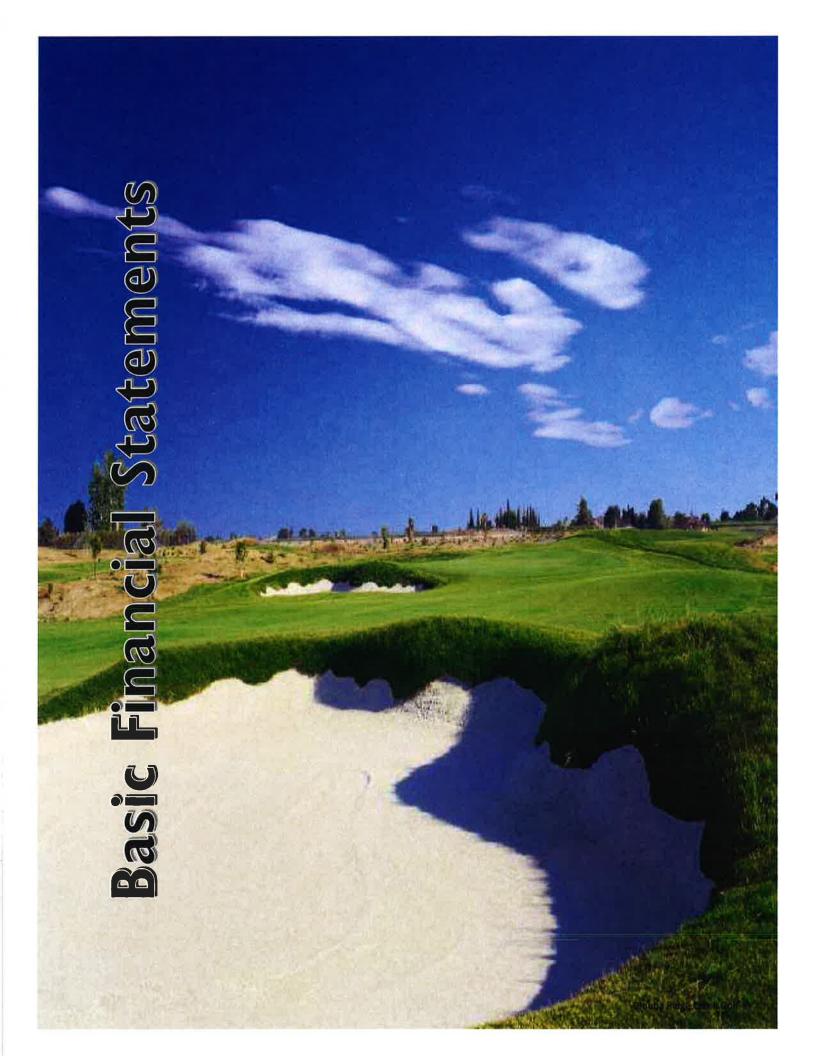

The local economy has slowly picked up traction over the course of the year. In June of 2015 the unemployment rate for Tulare County was 10.9%; in June of 2016 the rate was 10.7% The rate is anticipated to be affected by the closing of K-mart and Odwalla, a juice manufacturer. K-mart employed 70 employees in 2015, while Odwalla employed 167, for a total job loss of 307.

There was a slight decline in the construction of new homes. There were 78 permits issued in 2015 for single family residential homes. In 2016, 57 permits were issued for single family residential homes.

CONTACT THE CITY'S FINANCIAL MANAGEMENT

This management's discussion and analysis is designed to provide the City's residents, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to demonstrate the City's accountability. If you have questions about this document, separate reports of the City's component unit, or wish any additional financial information, contact:

CITY OF DINUBA RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION June 30, 2016

Fund balances of governmental funds	\$ 21,631,671
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets net of accumulated depreciation have not been included as financial resources in governmental funds.	188,580,229
Certain notes receivable and accrued interest on these notes are not available to pay for current period expenditures and, therefore are offset by deferred revenue in the governmental funds.	23,875,317
Certain accounts receivable and due from other governments are deferred inflows in the governmental funds due to their lack of collectability within 60 days after fiscal year end. These are considered revenue in the government-wide statements and are not deferred.	84,950
Long-term debt has not been included in the governmental funds.	
Long-term debt	(47,534,359)
Deferred loss on refunding, net of accumulated amortization on long-term debt have not been reported in the governmental funds.	440,571
Accrued interest payable from the current portion of interest due on long-term debt has not been reported in the governmental funds.	(274,097)
Deferred outflows and inflows of resources relating to pensions: In governmental funds, deferred outflows and inflows of resources relating to pensions are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources relating to pensions are reported.	
City's pension contributions subsequent to the measurement date Deferred outflow Deferred inflow	1,804,207 634,634 (1,759,816)
Internal service funds are used by management to charge the costs of certain activities, such as self-insurance, to individual funds. The assets and liabilities of the internal service fund must be added to the statement of net position. (Net of capital assets \$19,479, long-term debt (\$70,918), deferred outflow \$126,944, deferred inflow (\$216,693), and net pension liability (\$824,700) included above).	 (500,198)
Net position of governmental activities	\$ 186,983,109

CITY OF DINUBA

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS

TO THE STATEMENT OF ACTIVITIES For the Fiscal Year Ended June 30, 2016

Net change in fund balances - total governmental funds	\$	(2,673,668)
Amounts reported for governmental activities in the statement of activities differ because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the costs of those capital assets are allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.		10,759,804
Basis of the disposition of capital assets not included in governmental funds.		(497,315)
Certain receivables are reported in the governmental funds as expenditures and then offset by a deferred revenue as they are not available to pay current expenditures. Likewise when the receivable is collected it is reflected in revenue. This is the net change between receivables collected and issued.		821,840
The issuance of long-term debt provides current financial resources to governmental funds, while repayment of the principal of long-term debt consumes the current financial resources of the governmental funds. Issuance of bond principal is an other financing source and repayment of bond principal is an expenditure in governmental funds, but the issuance increases long-term liabilities and the repayment reduces long-term liabilities in the statement of net position.		(354,805)
Debt/loss on refunding are expenditures in the governmental funds, but these costs are capitalized on the statement of net position. This is the amount of costs paid less amortization in the current period.		(36,461)
Accrued interest is interest due on long-term debt payable. This is the net change in accrued interest for the current period.		10,036
Compensated absence expenditures reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in a governmental fund. This is the net change in compensated absences for the current period.		(39,782)
In governmental funds, pension costs and OPEB costs are recognized when employer contributions are made. In the statement of activities, pension costs and OPEB costs are recognized on the accrual basis. This fiscal year, the difference between accrual-basis pension and OPEB costs and actual employer contributions was:		(305,034)
Internal service funds are used by management to charge the costs of certain activities, such as self-insurance, to individual funds. The net revenues (expenses) of the internal internal service funds is reported with governmental activities.	-	644,036
Change in net position of governmental activities	\$	8,328,651

Notes to Basic Financial Statements

Note 1 Summary of Significant Accounting Policies

The financial statements of the City of Dinuba (City) have been prepared in conformity with accounting principles generally accepted in the United States of America (USGAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

a. Reporting Entity

The City of Dinuba is a political subdivision provided for by the General Law of the State of California and, as such, can exercise the powers specified by the Constitution and laws of the State of California. The City was incorporated in 1906 as a general law city. On June 4, 1994, the voters of the City approved a Charter which gives the City Council greater self-rule, and the Charter was accepted by the Secretary of State on July 7, 1994. The City operates under a council-manager form of government.

The City of Dinuba is a municipal corporation governed by an elected five-member City Council who, in turn, elects one of its members to serve as the Mayor. As required by accounting principles generally accepted in the United States of America, these financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the City. The blended component units have a June 30 fiscal year end to coincide with the City's.

Blended Component Unit. In addition, in May 1994, the Dinuba Financing Authority (Authority) was formed in order to provide a funding vehicle for necessary street improvements within the City. The governing board of the Dinuba Financing Authority is the City Council, and the City Manager acts as Executive Director. A separate financial report is not being issued for the Dinuba Financing Authority. The activity of the Authority is reported in the Financing Authority Debt Service Fund of the City.

b. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

b. Government-wide and Fund Financial Statements (Continued)

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

c. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds financial statements. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the fiscal year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

In the Fund Financial Statements, fiduciary funds are presented using the accrual basis of accounting. The private-purpose trust funds use the economic resources measurement focus. The agency funds do not have a measurement focus.

Governmental funds financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when the liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The City reports the following major governmental funds:

The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in other funds.

The HUD Grant Special Revenue Fund – This fund accounts for certain designated projects paid for the HUD Grant Federal program monies received from the State, along with repayments of loans.

Public Safety Sales Tax Special Revenue Fund – This fund accounts for 3/4% add-on sales tax approved by voters in November 2005 for enhanced public safety services.

General Construction Fund – This fund accounts for other major construction projects.

Note 1 Summary of Significant Accounting Policies (Continued)

c. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Transportation Construction Fund – This fund accounts for other major street construction projects.

The Dinuba Financing Authority Debt Service Fund – This fund accounts for the accumulation of resources for, and the retirement of, the Authority's long-term debt issue for capital investments.

The City reports the following major proprietary funds:

The Water Enterprise Fund – This fund accounts for the operation and maintenance of the City's water distribution system.

The Sewer Enterprise Fund – This fund accounts for the operation and maintenance of the City's wastewater collection system including operating costs of the wastewater treatment facility.

The Disposal Enterprise Fund – This fund accounts for the collection and disposal of solid waste from industrial, commercial, and residential users throughout the Dinuba area.

The Ambulance Enterprise Fund – This fund accounts for ambulance service fees and all costs associated with providing ambulance service throughout the City.

The Golf Course Fund – This fund accounts for the operation and maintenance of the City's golf course.

Additionally, the City reports the following fund types:

The Internal Service Funds account for financial transactions related to the City's billing and collections, maintenance and repairs, and self-insurance programs. These services are provided to other departments or agencies of the City on a cost reimbursement basis.

The Fiduciary Funds are used to report resources held by the City in a purely custodial capacity, which involves only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments. These funds are not included in the government-wide financial statements. These assets include refundable and expendable cash deposits, and retentions withheld pending satisfactory project completion. Please see page 141 for description of activities for each Agency Fund. The Private-Purpose Trust Funds are used to account for the assets of the former City of Dinuba Redevelopment Agency during the wind down period.

Note 1 Summary of Significant Accounting Policies (Continued)

c. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's proprietary funds function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Enterprise Funds and of the Internal Service Fund are charges to customers for sales and services. Operating expenses for the Enterprises Funds and the Internal Service Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

d. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Net Position or Equity

Cash and Investments

In order to maximize the flexibility of its investment program and to aid in cash budgeting, the City pools the cash of all funds, except for monies deposited with fiscal agents in accordance with related bond indentures. The cash and investments balance in each fund represents that fund's equity share of the City's cash and investment pool. As the City places no restrictions on the deposit or withdrawal of a particular fund's equity in the pool, the pool operates like a demand deposit account for the participating funds.

Interest income earned on pooled cash and investments is allocated monthly to the various funds based on month-end balances and is adjusted at fiscal year-end. Interest income on restricted cash and investments with fiscal agents is credited directly to the related fund.

In accordance with the State of California Government Code, the City adopts an investment policy annually that, among other things, authorizes types and concentrations of investments and maximum investment terms.

Note 1 Summary of Significant Accounting Policies (Continued)

d. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Net Position or Equity (Continued)

The City's investments are carried at fair value. The fair value of equity and debt securities is determined based on sales prices or bid-and-asked quotations from SEC-registered securities exchanges or NASDAQ dealers. LAIF determines the fair value of its portfolio quarterly and reports a factor to the City; the City applies that factor to convert its share of LAIF from amortized cost to fair value. Changes in fair value are allocated to each participating fund.

For purposes of the statement of cash flows, the City has defined cash and cash equivalents to be change and petty cash funds, equity in the City's cash and investment pool, and restricted non-pooled investments with initial maturities of three months or less.

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as interfund receivables/interfund payables (i.e., the current portion of interfund loans) or advances to/from other funds (the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as interfund receivables or interfund payables. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as internal balances.

All trade and tax receivables are shown net of an allowance for uncollectible accounts if applicable, and estimated refunds due.

Property Taxes

Assessed values for purposes of property taxes are determined on an annual basis for the period July 1 to June 30 by the Tulare County Assessor as of January 1. Taxes are levied annually on July 1 and become a lien on real property at January 1. Taxes are due November 1 and February 1 and are delinquent if not paid by December 10 and April 10, respectively, at which time applicable penalties and interest are assessed. Unsecured taxes became delinquent if not paid by August 31.

Prepaid Items

Payments to vendors that reflect costs applicable to future accounting periods are recorded as prepaid items in both government-wide and fund financial statements.

Restricted Assets

Certain proceeds of the City's long-term debt, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because they are maintained in separate bank accounts and their use is limited by applicable bond covenants.

Note 1 Summary of Significant Accounting Policies (Continued)

d. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Net Position or Equity (Continued)

Restricted Assets (Continued)

In the absence of specific statutory provisions governing the issuance of bonds, certificates, or leases, these bond monies may be invested in accordance with the ordinance; resolutions and indentures specifying the types of investments its trustees or fiscal agents may make. These ordinances, resolutions, and indentures are generally more restrictive than the City's general investment policy. In no instance have additional types of investments been authorized that are not permitted by the City's general investment policy.

Capital Assets

Capital assets, which include property, plant, equipment, fine art, and infrastructure assets (e.g., roads, bridges, sidewalks, traffic lights and signals, street lights, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of \$2,500 or more and an estimated useful life in excess of one year. Such capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the capital asset or materially extend capital asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized during the fiscal year ended June 30, 2016.

Capital assets of the City are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	30
Improvements other than buildings	30
Infrastructure	20 to 40
Utility systems	40 to 75
Vehicles	5 to 15
Computer equipment	7
Other equipment and furnishings	7

The City's art collection is not depreciated. Periodic restoration and maintenance costs on particular items are charged to expense as incurred.

Deferred Outflows and Inflows of Resources

Pursuant to GASB Statement No. 68 and 71, the City recognizes deferred outflows and inflows of resources. Deferred outflow and inflow of resources are defined as a consumption or resource of net position by the government that is applicable to a future reporting period.

Note 1 Summary of Significant Accounting Policies (Continued)

d. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Net Position or Equity (Continued)

Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick leave benefits. All vacation and sick leave benefits are accrued as earned by employees. A portion of unused sick leave benefits, varying by employee bargaining unit, vests and is payable upon retirement. For proprietary funds, a current liability is reported for that portion of the estimated value of vacation and sick leave benefits to be used during the subsequent fiscal year, and the estimated value of vested sick leave benefits of employees approaching or at their respective retirement ages.

Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Initial-issue bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method (which approximates the effective interest method). The difference between the reacquisition price of refunding bonds and the net carrying amount of refunded debt (deferred amount on refunding) is amortized over the shorter of the life of the refunding debt or remaining life of the refunded debt. Amortization of bond premiums or discounts, and deferred amounts on refunding is included in interest expense.

In the fund financial statements, governmental fund types recognize bond premiums, discounts, and issuance costs during the period issued. The face amount of debt issued is reported as other financing sources. Premiums received are reported as other financing sources, while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position and Fund Equity

GASB Statement No. 63 requires that the difference between assets added to the deferred outflows of resources and liabilities added to the deferred inflows of resources be reported as net position. Net position is classified as either net investment in capital assets, restricted, or unrestricted.

Net position that is net investment in capital assets consist of capital assets, net of accumulated depreciation, and reduced by the outstanding principal of related debt. Restricted net position is the portion of net position that has external constraints placed on it by creditors, grantors, contributors, laws, or regulations of other governments, or through constitutional provisions or enabling legislation. Unrestricted net position consists of net position that does not meet the definition of net investment in capital assets or restricted net position.

Note 1 Summary of Significant Accounting Policies (Continued)

d. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Net Position or Equity (Continued)

Net Position and Fund Equity (Continued)

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned or unassigned based primarily on the extent to which the City is bound to honor constraints on how specific amounts can be spent.

- Nonspendable fund balance amounts that cannot be spent because they are either (a) not spendable in form or (b) legally or contractually required to be maintained intact.
- Restricted fund balance amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.
- Committed fund balance amounts that can only be used for specific purposes
 determined by formal action of the City Council which includes the City Charter,
 ordinances and resolutions and that remain binding unless removed in the same
 manner. The underlying action that imposed the limitation needs to occur no later
 than the close of the reporting period.
- Assigned fund balance amounts that are constrained by the City's intent to be
 used for specific purposes, but are neither restricted nor committed. Such intent
 should be expressed by the City Council or its designated officials to assign
 amounts to be used. Constraints imposed on the use of assigned amounts can be
 removed with no formal Council actions.
- Unassigned fund balance the residual classification for the City's General Fund
 that includes amounts not contained in the other classifications. In other funds,
 the unassigned classification is used only if expenditures incurred for specific
 purposes exceed the amounts restricted, committed, or assigned to those
 purposes.

The City Council establishes, modifies or rescinds fund balance commitments and assignments by passage of a resolution or other formal action. This is done through adoption of the budget and subsequent budget amendments that occur throughout the year.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, followed by unrestricted committed, assigned and unassigned resources as they are needed.

Note 1 Summary of Significant Accounting Policies (Continued)

e. New Accounting Pronouncements

Governmental Accounting Standards Board Statement No. 72

For the fiscal year ended June 30, 2016, the City implemented Governmental Accounting Standards Board (GASB) Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72, Fair Value Measurement and Application, addresses accounting and reporting issues related to fair value measurements. Fair value is defined as the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. The pronouncement provides for three valuation techniques: the market approach, the cost approach and the income approach. The valuation technique should be consistently applied, maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The hierarchy of inputs used to measure fair value falls into three categories: Level 1 is quoted market prices for identical assets or liabilities; Level 2 is for observable inputs either directly or indirectly; Level 3 is unobservable inputs. The pronouncement will be effective for the years ending June 30, 2016, and will require restatement of prior periods.

Governmental Accounting Standards Board Statement No. 73

For the fiscal year ended June 30, 2016, the City implemented Governmental Accounting Standards Board (GASB) Statement No. 73, Accounting and Reporting for Pensions and Related Assets not within the Scope of GASB 68 and Amendments to GASB 67 and 68. This pronouncement applies the approach to accounting and financial reporting established in GASB 68 to all pension plans that are not within the scope of GASB 68, with certain modifications.

Amendments to GASB 67 and 68 relate to information about investment-related factors and clarify that only information about trends that the plan has influence over should be presented. It also clarifies that payables to a pension plan for any unpaid financing obligations are not separately financed specific liabilities as defined by GASB 67. The last amendment relates to recognizing revenue for support of nonemployer contributions to a pension plan and requires that the contribution be recognized in the same period as the change in the net pension liability is recognized. The amendments will be effective for years ending June 30, 2016.

f. Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

Note 1 Summary of Significant Accounting Policies (Continued)

g. Reconciliation of Government-wide and Fund Financial Statements

Explanation of certain differences between the governmental funds balance sheet and the government-wide statement of net position:

The governmental funds balance sheet includes a reconciliation between fund balances – governmental funds and net positions of governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term debt and compensated absences have not been included in the governmental fund activity". The detail of the \$47,534,359 long-term debt difference is as follows:

Long-term debt		
Compensated absences	\$	1,130,435
Net OPEB obligation		7,244,869
Net pension liability		11,740,635
Revenue bonds payable, net		17,320,260
Notes payable		12,965
Capitalized leases payable	-	10,085,195
Net adjustment to reduce fund balances of total governmental funds to arrive		
at net position of governmental activities		47,534,359

Explanation of certain differences between the governmental funds statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities:

The governmental funds statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental Funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense."

The details of this \$10,759,804 difference are as follows:

5	
governmental activities	\$ 10,759,804
changes in net position of	
governmental funds to arrive at	
changes in fund balances - total	
•	
Net adjustment to increase net	
2 opi oviation empones	 (6,022,1.05)
Depreciation expense	(3,029,796)
Capital outlay and contribution	\$ 13,789,600

Note 1 Summary of Significant Accounting Policies (Continued)

g. Reconciliation of Government-wide and Fund Financial Statements (Continued)

Another element of that reconciliation states that "the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds". Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The details of this \$(1,681,262) difference are as follows:

Debt issued or incurred:		
Net OPEB obligation	\$	(1,326,457)
Site and Facility Capital Lease		(1,300,000)
Principal repayments:		
Revenue bonds - principal		675,000
Amortization of discount		(12,169)
Contracts, notes, and loans payable		54,646
Capital leases payable		227,718
Net adjustment to decrease net changes		
in fund balance of total governmental		
funds to arrive at changes in net		
position of governmental activities	_\$_	(1,681,262)

Note 2 Stewardship, Compliance, and Accountability

a. General Budget Policies

- 1. The annual budget adopted by the City Council provides for the general operation of the City. It includes proposed expenditures and the means of financing them.
- 2. The City Council approves total budgeted appropriations and any amendments to appropriations throughout the fiscal year. All amendments made during the fiscal year are included in the budgetary amounts reported herein. The "appropriated budget" covers all City expenditures, with the exception of debt service on bond issues and capital improvement projects carried forward from prior fiscal years, which expenditures constitute legally authorized "non-appropriated budget". Actual expenditures may not exceed budgeted appropriations at the fund level, which is the legal level of control.

The City Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council.

- 3. Formal budgetary integration is employed as a management control device during the fiscal year. Commitments for materials and services, such as purchase orders and contracts, are recorded as encumbrances to assist in controlling expenditures. Appropriations which are encumbered lapse at fiscal year-end, and then are added to the following fiscal year's budgeted appropriations.
- 4. Budgets for the General, Special Revenue, and Debt Service Funds are adopted on a basis substantially consistent with accounting principles generally accepted in the United States of America (USGAAP). Accordingly, actual revenues and expenditures can be compared with related budgeted amounts without any significant reconciling items.

Budget comparisons are not presented for the Proprietary Funds, as the City is not legally required to adopt a budget for these type funds.

- 5. Capital projects are budgeted through the Capital Projects Funds. Appropriations for capital projects authorized but not constructed or completed during the fiscal year are carried forward as continuing appropriations into the following fiscal year's budget.
- 6. Under Article XIII-B of the California constitution (the Gann Spending Limitation Initiative), the City is restricted as to the amount of annual appropriations from the proceeds of taxes, and if proceeds of taxes exceed allowed appropriations, the excess must either be refunded to the State Controller or returned to the taxpayers through revised tax rates or revised fee schedules, or an excess in one year may be offset by a deficit in the following year. For the fiscal year ended June 30, 2016, based on calculations by City staff, proceeds of taxes did not exceed appropriations. Further, Section 5 of Article XIII-B allows the City to designate a portion of fund balance for general contingencies, to be used for any purpose.

Note 2 Stewardship, Compliance, and Accountability (Continued)

b. Deficit Fund Balances and Net Position

The General Construction Capital Projects Fund has a deficit fund balance of \$51,479 which should be alleviated when the fund receives additional funding. The Public Safety Sales Tax Fund has a deficit fund balance of \$60,016 which should be alleviated when the fund receives additional funding. The Vocational Center Capital Projects Fund has deficit fund balance of \$460,646 which should be alleviated as additional revenues or transfers are received. The Engineering fund has a deficit fund balance of \$255,561 which will be alleviated with interfund transfers or additional revenue.

The Insurance, Billing and Collection, and Property and Equipment Internal Service Funds have deficit net positions of \$762,751, \$384,128, and \$181,761, respectively. These deficits should be alleviated as additional revenues are received by City departments.

c. Excess Expenditures over Appropriations

The following are funds in which certain expenditures exceeded appropriations for the fiscal year ended June 30, 2016.

Fund/Function	An	Final propriation	Ex	penditures	Excess
Nonmajor Funds:		propriation		pondicuros	
Transportation Special Revenue	\$	405,803	\$	511,268	\$ 105,465
Community Enhancement Special Revenue		114,310		137,803	23,493
Assessment Districts Special Revenue		380,372		588,383	208,011
General Debt Service		396,950		499,750	102,800
Major Funds:					
General Construction		1,117,780		1,293,096	175,316
Public Safety Sales Tax		2,638,381		3,422,876	784,495

Note 3 Cash and Investments

Cash and investments as of June 30, 2016 are classified in the accompanying financial statements as follows:

Statement of net position:	
Cash and investments	\$ 9,398,144
Restricted cash and investments with Fiscal Agents	2,102,832
Fiduciary funds:	
Cash and investments	2,650,557
Restricted cash and investments with Fiscal Agents	 1,525,185
Total cash and investments	\$ 15,676,718

Cash and investments as of June 30, 2016 consist of the following:

Cash on hand Deposits with financial institutions Investments	\$ 7,135 1,500,351 14,169,232
Total cash and investments	\$ 15,676,718

Note 3 Cash and Investments (Continued)

A. <u>Investments Authorized by the California Government Code and the City's Investment Policy</u>

The table below identifies the investment types that are authorized for the City of Dinuba (City) by the California Government Code (or the City's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the City's investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustee that are governed by the provisions of debt agreements of the City, rather than the general provisions of the California government Code or the City's investment policy.

		Maximum	Maximum
	Maximum	Percentage	Investment
Authorized Investment Type	Maturity	of Portfolio	in One Issuer
Local Agency Investment Fund (State Pool)	N/A	None	\$50 million
U.S. Treasury Obligations	N/A	None	None
U.S. Government Agency Issues	N/A	None	None
Insured Passbook on Demand Deposits with Banks			
and Savings and Loans	N/A	None	100,000
Certificates of Deposit	5 years	None	100,000
Money Market Funds (must be comprised			
of eligible securities permitted under this			
policy)	N/A	None	None
Repurchase agreements	l year	None	None

The investment policy allows for the above investments which have equal safety and liquidity as all other allowed investments. Maturity depends on the cash needs of the City.

B. Investments Authorized by Debt Agreements

Investment of debt proceeds held by bond trustees are governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the City's investment policy. The table below identifies the investment types that are authorized for investments held by bond trustee. The table also identifies certain provisions of these debt agreements that address interest rate risk, credit risk, and concentration of credit risk.

		Maximum	Maximum
	Maximum	Percentage	Investment
Authorized Investment Type	Maturity	of Portfolio	in One Issuer
Local Agency Investment Fund (State Pool)	N/A	None	None
U.S. Treasury Obligations	N/A	None	None
U.S. Government Agency Issues	N/A	None	None
Insured Passbook on Demand Deposits with			
Banks and Savings and Loans	N/A	None	None
Certificates of Deposit	N/A	None	None
Bankers Acceptances	1 year	None	None
Commercial Paper	N/A	None	None
Mutual Funds (must be comprised of eligible			
securities permitted under this policy)	N/A	None	None
Money Market Funds (must be comprised of			
eligible securities permitted under this policy)	N/A	None	None
Municipal Bonds (rated highest 2 categories)	N/A	None	None
Investment Agreements	N/A	None	None
Repurchase Agreements	N/A	None	None

Note 3 Cash and Investments (Continued)

B. Investments Authorized by Debt Agreements (Continued)

The investment policy allows for the above investments which have equal safety and liquidity as all other allowed investments. Maturity depends on the cash needs of the City.

C. Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the City manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the City's investments (including investments held by bond trustee) to market interest rate fluctuations is provided by the following table that shows the distribution of the City's investments by maturity:

				Rem	aining matu	rity	(in Months)		
Totals			12 Months or Less				25-60 Months		Than 60 onths
\$	9,389,350	\$	9,389,350	\$	100	\$	*	\$	
	1,109,904		1,109,904						
	2,018,526						2,018,526		
	195,412				195,412				
	1,456,040		1,456,040			_

D. Investments with Fair Values Highly Sensitive to Interest Rate Fluctuations

The City has no investments (including investments held by bond trustees) that are highly sensitive to interest rate fluctuations (to a greater degree than already indicated in the information provided above).

E. Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the City's investment policy, or debt agreements, and the actual rating as of fiscal year end for each investment type.

Note 3 Cash and Investments (Continued)

E. <u>Disclosures Relating to Credit Risk (Continued)</u>

										Rat	ing as o	of F	iscal	Year	End	d

^{*} These certificates of deposit have no rating but are covered under FDIC insurance.

F. Concentration of Credit Risk

The investment policy of the City contains limitations on the amount that can be invested in any one issuer. There are no investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of total City investments.

G. Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g. brokerdealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments. The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the government unit). The fair value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

As of June 30, 2016, all of the City's deposits with financial institutions in excess of federal depository insurance limits were held in collateralized accounts. As of June 30, 2016, City investments in the following investment types were held by the same broker-dealer (counterparty) that was used by the City to buy the securities:

Investment Type	 Reported Amount
Certificates of deposit	\$ 1,456,040
Money market funds	1,109,904
Federal Agency Securities	2,018,526

Note 3 Cash and Investments (Continued)

Investment in State Investment Pool

The City is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the City's investment in this pool is reported in the accompanying financial statements at amounts based upon the City's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

H. Fair Value Measurements

The City categorizes its fair value measurements within the fair value hierarchy establish by generally accepted accounting principles. These principles recognize a three tiered fair value hierarchy as follows: Level 1 – Investments reflect prices quoted in active markets; Level 2 – Investments reflect prices that are based on similar observable asset either directly or indirectly, which may include inputs in markets that are not considered active; and Level 3 – Investments reflect prices based upon unobservable sources. The City has marketable securities that are measured with recurring fair value measurements as of June 30, 2016 and are valued using quoted market prices (level 1 inputs).

Note 4 Notes Receivable

Notes receivable as of June 30, 2016, totaled \$21,787,770 and were recorded as follows:

Capital Projects Funds	\$ 110,760
Special Revenue Funds	21,374,393
Enterprise Funds	302,617
Total Notes Receivable	\$ 21,787,770

Notes receivable by type are:

Home Loan Rehabilitation Program loans to assist low income residents to afford safe and sanitary housing, including improvements to the housing; non-interest bearing to 10 percent interest; principal and interest generally due at maturity or change of home ownership; secured by deeds of trust; proceeds are paid directly to the builder and a receivable is recorded from the home purchaser.

\$ 11,907,469

Note for the purchase of residential property related to the golf
course at 4% interest, secured by a deed of trust. Note is payable
in monthly installments of \$835.48 until May 4, 2017 at which
time the entire unpaid balance will become due and payable

160,831

Note to Pena's	(disposal	contractor)	for	purchase of	green	carts.

141,786

HOME program funds were used to loan to a developer for the construction of an affordable Senior housing complex.

3,100,000

Promissory notes from developers for the acquisition and development of property for housing projects within the City; interest rates from 3% to 4.81%; terms of the notes are thirty to forty years; notes secured by deeds of trust.

6,477,684

Totals \$ 21,787,770

Note 5 Accounts Receivable

Note 6 Interfund Transactions

A. Current Interfund Balances

Current interfund balances arise in the normal course of business and are expected to be repaid shortly after the end of the fiscal year. These balances normally represent loans to cover temporary shortages of cash in individual funds. The following presents a summary of current interfund balances at June 30, 2016.

Receivable Fund		Amount	Payable Fund		Amount
Major Funds:			Non-Major Governmental Funds		499,326
General	\$	1,375,683	Internal Service Fund - Insurance		535,982
Transportation Construction		568,646	Internal Service Fund - Billing		32,664
	,,		HUD Grant Major Special Revenue		54,249
Totals	\$\$	1,944,329	Financing Authority Major Debt Service		15,233
	7:		Public Safety Sales Tax Major Special Revenue		377,229
			Golf Major Enterprise		26,280
			Non-Major Enterprise Funds		403,366
				\$	1,944,329

Long-term Interfund Advances

At June 30, 2016, the funds below have made/received advances that were not expected to be repaid within one year.

Receivable Fund	Amount	Payable Fund	Amount
Major Proprietary Funds:		Major Funds:	
Disposal	\$ 257,616	General Construction	\$ 161,616
Water	52,000	General	1,031,663
Sewer	52,000	Financing Authority	200,000
Major Funds:		Major Proprietary Fund:	
General	368,000	Golf Course	596,337
Non-major Governmental Funds	1,376,904	Non-major Governmental Funds	116,904
Totals	\$ 2,106,520		\$ 2,106,520

Advances will be repaid to the advancing fund when revenue in the receiving fund is adequate. These usually occur as impact fees, operating, fees, tax revenues, or sales of property occur.

The City has loaned funds to the Successor Agency to the Redevelopment Agency in the amount of \$12,759,297. These are scheduled to be repaid with future tax increment dollars received by SADRA.

Note 6 Interfund Transactions (Continued)

B. Transfers Between Funds

With Council approval, resources may be transferred from one City fund to another. The purpose of the majority of transfers is to reimburse a fund that has made an expenditure on behalf of another fund, less often, an equity transfers may be made to open or close a fund.

Transfer in		Amount	Transfer out		Amount
Major Governmental:			Major Governmental:

b. Governmental Activities - Lease Revenue Bonds

2007 DFA Lease Revenue Bonds Payable. On September 12, 2007, the Dinuba Financing Authority issued \$7,450,000 of Lease Revenue Bonds. The proceeds of the bonds are being used to finance road improvements in the City, to fund the Reserve Account with respect to the Bonds, and to pay certain costs of issuance. The lease revenues provided for by an installment agreement with the City is to be used for the payment of the bonds. Interest rates vary between 4.0% and 5.375% and are payable semi-annually on September 1 and March 1. Principal is paid annually on September 1 through 2038. Bonds maturing after 2017 are subject to optional redemption. The principal balance outstanding at June 30, 2016 is \$6,405,000.

2012 DFA Lease Revenue Bonds Payable. On November 7, 2012, the Dinuba Financing Authority issued \$11,270,000 of 2012 Lease Revenue Refunding Bonds. The proceeds of the bonds were used to refund the 2002 Lease Revenue Bonds in the amount of \$6,430,000, refund the \$3,825,000 remaining balance of the 2010 Lease Revenue Notes issued by the Redevelopment Agency, fund a reserve account, and pay costs of issuance.

The bonds consist of \$5,285,000 of serial bonds with maturity dates from September 1, 2014 through 2024. Interest rates vary between 2.0%-3.0% with semi-annual payments due each March 1 and September 1. There are also \$4,650,000 of term bonds due September 1, 2032 and \$1,335,000 term bonds due September 1, 2038, which carry interest rates of 3.75% and 4.00%, respectively.

The principal balance outstanding on the 2012 bonds as of June 30, 2016 was \$10,010,000.

The refunding of the 2002 bonds resulted in a cash savings over the repayment period of \$690,097 and an economic gain of \$481,729. The refunding of the 2010 bonds resulted in a cash deficit of \$2,361,946 as the 2010 bonds were due in 2016 whereas the 2012 bonds are due through 2038.

On September 20, 2012, the Dinuba Financing Authority issued \$1,500,000 of Lease Revenue Bonds. The proceeds of these bonds are to be used for financing and refinancing the purchase of certain land parcels within the City and pay costs of issuance. The bonds carry interest at 3.0%, interest is paid semi-annually each March 1 and September 1. Principal is due each September 1 through 2022. The outstanding balance of the 2012 Lease Revenue Bonds as of June 30, 2016 was \$1,175,000.

c. Governmental Activities - Note Payable

On August 27, 2003, the City purchased a parcel of real estate. The City issued a note to the seller in the amount of \$45,000. The note is secured by a deed of trust, carries an interest rate of 7%, and is due in annual installments of \$4,941 through 2018. The outstanding principal balance of the note at June 30, 2016 was \$12,965.

d. Governmental Activities - Leases Payable

In fiscal year 2001-02, the City entered into a 15 year lease with the County of Tulare for the Justice Facility, which also qualifies as a capital lease. Terms of the lease call for semi-annual payments of \$104,777 at 6.07%. This lease has ended as of June 30, 2016.

Note 8 Long-Term Liabilities (Continued)

d. Governmental Activities - Leases Payable (Continued)

On October 15, 2013 the City entered into a Master Equipment Lease Purchase Agreement with Pinnacle Public Finance Inc. (Lessor) for the purpose of financing the purchase of Logos, net Software in the amount of \$548,623. The annual payments begin October 15, 2014 with a final maturity date of October 15, 2020. The interest rate is 3.38% and the annual payments are \$89,323. The outstanding balance of the lease obligation as of June 30, 2016 was \$404,672.

On December 1, 2013 the City entered into a lease purchase agreement with the Dinuba Financing Authority and Western Alliance Bank in the amount of \$8,433,377. The lease was executed to finance the costs associated with the acquisition, construction, and installation of solar energy improvements to City facilities. The funds are to be deposited into a project fund (\$8,146,742), a capitalized interest fund (\$176,785) and a delivery costs fund (\$109,850). Lease payments are made semi-annually on June 12 and December 12. Interest is 4.1925%. The lease term matures on December 12, 2033. The City has the right to prepay the lease at any time.

As of June 30, 2014, the City paid costs of delivery in the amount of (\$106,924), paid first installment of interest on June 12, 2014 (\$176,785), and paid project costs of \$2,462,682. Amount remaining in the project fund is \$5,684,060. The outstanding balance as of June 30, 2016 is \$8,409,712.

e. Governmental Activities - Contract Payable

On September 13, 2011, the City entered into an agreement with a bank to purchase 5 police vehicles for \$243,649. The City will make five payments of \$53,217 with accrued interest of 4.40% per annum. This contract has been paid off as of June 30, 2016.

f. Governmental Activities - Site and Facility Lease

On July 1, 2015 the City entered into a Site and Facility Lease with Compass Bank. The City determined it was necessary and desirable to repay a loan to the Successor Agency to the Dinuba Redevelopment Agency. The City will lease real property and improvements consisting of the Dinuba Transit Center to Compass in consideration for Compass's paying the City the sum of not to exceed \$1,300,000 in advance rental. Compass bank will then lease the site and facility back to the City at an interest rate not to exceed 5.25%. The site and facility lease will commence on July 1, 2015 and shall end on May 25, 2030. The outstanding principal balance of this lease at June 30, 2016 is \$1,270,811.

Enterprise Funds - Notes Payable.

The State of California Department of Water Resources granted a loan to the Water Fund of the City for construction of water facilities in the amount of \$2,700,000. Of this amount, \$1,924,399 was drawn down from the State. The note calls for semiannual payments of \$54,710 including interest at 2.955% until January 2024. The balance at June 30, 2016 is \$730,134.

The State of California Department of Water Resources granted a loan to the Water Fund of the City for construction of water facilities in the amount of \$7,462,450. Of this amount, \$6,956,217 was drawn down from the State. The note calls for semiannual payments of \$224,125 including interest at 2.60% until January 2029. The balance at June 30, 2016 is \$5,232,060.

Installment Purchase Agreement

On December 1, 2010, the City of Dinuba entered into a \$1,615,000 Installment Purchase Agreement with the Dinuba Financing Authority, for the purpose of currently refunding a portion of the City's Refunding Certificates of Participation, Series 109A maturing on August 1, 2018, and to pay for the costs of issuance. The Installment Purchase Payments bear interest at a rate of 3% and is payable semi-annually. Principal is repaid at a graduated rate beginning August 1, 2011 and maturing August 1, 2018. The principal amount due at June 30, 2016 is \$640,000.

The obligations are being issued in part for purpose of providing present value debt service savings to the City. The refunding of the currently refunded obligation does not involve a device employed to obtain a material financial advantage.

Note 8 Long-Term Liabilities (Continued)

h. Business-Type Activities (Continued)

2007 DFA Wastewater System Revenue Bonds

On September 12, 2007, the Dinuba Financing Authority issued \$3,150,000 of Revenue bonds. The proceeds of the bonds were issued by the purpose of financing wastewater system improvements within the City. The installment purchase payments are secured by a separate pledge, charge and lien upon the net revenues of the wastewater system.

Interest rates vary between 4.0% and 5.375% and are payable semi-annually on September 1 and March 1. Principal is paid annually on September 1 through 2038. Bonds maturing after 2017 are subject to optional redemption. The principal balance outstanding at June 30, 2016 is \$2,710,000.

2012 Wastewater Revenue Refunding Bonds

On November 7, 2012, the City issued \$8,145,000 of Series 2012 Wastewater Revenue Refunding Bonds. The bonds were issued to refund \$3,005,000 of outstanding 1998A Refunding Certificates of Participation, \$3,845,000 of outstanding 2008 Lease Revenue Bonds, fund a reserve fund, and pay the costs of issuance.

These bonds will be payable from and secured by net revenues and certain funds and accounts of the City's wastewater system.

The bonds consist of \$1,880,000 of service bonds at an interest rate of 2% and maturing between 2014 and 2020. The issue also includes \$6,265,000 of term bonds with interest rates ranging from 2.50% to 5.00% and maturing between 2022 and 2038. Interest is payable semi-annually each March 1 and September 1. Principal is due annually each September 1.

The outstanding principal balance of the bonds as of June 30, 2016 was \$7,605,000.

The City advance refunded the 1998A Refunding Certificates of Participation of the 2008 Lease Revenue Bonds to reduce its total debt service over the next 25 years by \$416,788 and \$869,754 respectively. These refundings also provided an economic gain of \$311,941 and \$561,370 respectively.

Loan Payable

In September, 2011, the City received a loan of \$611,334 from the California Energy Commission for various energy conservation measures to their Wastewater System. The loan calls for semiannual payments of \$42,595 including interest at 1.00% until December, 2019. The balance at June 30, 2016 is \$292,286.

Note 8 Long-Term Liabilities (Continued)

h. Business-Type Activities (Continued)

Capital Leases

On September 12, 2012, the City entered into a lease which qualifies as a capital lease for the purchase of a Vac-Con truck. The original value of the equipment was \$365,242. The lease calls for annual payments of \$79,085 with interest at a rate of 3.26%. The maturity date of the lease is March 12, 2017. The present value of minimum lease payments as of June 30, 2016 was \$76,588.

k. Compensated Absences

Compensated absences in governmental activities have been liquidated in the past fiscal year in the general fund, the gas tax, transportation, public safety sales tax and community enhancement grant, (Special Revenue Funds) and general construction, vocational center, and public works management (Capital Projects funds).

Note 9 Pension Plan

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Plans and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Note 9 Pension Plan (Continued)

A. General Information about the Pension Plan

Plan Descriptions – All qualified employees are eligible to participate in the City's separate Safety (police and fire) and Miscellaneous (all other) Plans, cost sharing agent multiple-employer defined benefit pension plans administered by the California Public Employees' Retirement System (CalPERS), which acts as a common investment and administrative agent for its participating member employers. Benefit provisions under the Plans are established by State statute and Local Government resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

Benefits Provided – CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The Plans' provisions and benefits in effect at June 30, 2016, are summarized as follows:

City Miscellaneous Plan

	Prior to	On or after
Hire date	January 1, 2013	January 1, 2013
Benefit formula	2% @ 55	2.0% @ 62
Benefit vesting schedule	5 years service	5 years service
Benefit payments	monthly for life	monthly for life
Retirement age	50-55	52-67
Monthly benefits, as a % of eligible compensation	2.0% to 2.7%	1.0% to 2.5%
Required employee contribution rates	4%	6.25%
Required employer contribution rates	14.514%	6.25%

City Safety Plan

	Prior to	On or after
Hire date	January 1, 2013	January 1, 2013
Benefit formula	2% @ 55	2.0% @ 62
Benefit vesting schedule	5 years service	5 years service
Benefit payments	monthly for life	monthly for life
Retirement age	50-55	52-67
Monthly benefits, as a % of eligible compensation	2.0% to 2.7%	1.0% to 2.5%
Required employee contribution rates	4.5%	11.50%
Required employer contribution rates	27.541%	11.50%

Note 9 Pension Plan (Continued)

A. General Information about the Pension Plan (Continued)

Contributions – Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July I following notice of a change in the rate. Funding contributions for both Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2016, the City reported net pension liabilities for its proportionate share of the net position liability of the Plan as follows:

isc. Plan				
isc. Pian	S	afety Plan	82	Total
5,799,429	\$	7,946,896	\$	13,746,325

The City's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2015, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2014 rolled forward to June 30, 2015 using standard update procedures. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined. The City's proportionate share of the net pension liability for the Plan as of June 30, 2014 and 2015 was as follows:

City Miscellaneous Plan

Proportion - June 30, 2014	0.22722%
Proportion - June 30, 2015	0.21139%
Change - Increase (Decrease)	-0.01583%
City Safety Plan	
Proportion - June 30, 2014	0.20792%
Proportion - June 30, 2015	0.19287%

-0.01506%

Change - Increase (Decrease)

Note 9 Pension Plan (Continued)

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

For the fiscal year ended June 30, 2016, the Local Government recognized pension expense of \$2,349,470. At June 30, 2016, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Pension contributions subsequent to measurement date	\$ 2,115,938	\$ -
Differences between expected and actual experience	37,747	(158,028)
Changes in assumptions		(1,083,952)
Differences in actual vs proportionate contribution	362,806	(43,360)
Net differences between projected and actual earnings		
on pension plan investments		(547,392)
Adjustment due to differences in proportions	338,985	(227,718)
Total	\$ 2,855,476	\$ (2,060,450)
Differences in actual vs proportionate contribution Net differences between projected and actual earnings on pension plan investments Adjustment due to differences in proportions	338,985	(43,360) (547,392) (227,718)

\$2,115,938 reported as deferred outflows of resources related to contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions and will be recognized as pension expense as follows:

Fiscal Year Ended		
June 30,	20	
2017	\$	(413,107)
2018		(413,107)
2019		(357,853)
2020	2	(136,845)
Total	\$	(1,320,912)

The City's net pension liability for each Plan is measured as the total pension liability, less the pension plan's fiduciary net position. The net pension liability of each of the Plans is measured as of June 30, 2015, using an annual actuarial valuation as of June 30, 2014 rolled forward to June 30, 2015 using standard update procedures. A summary of principal assumptions and methods used to determine the net pension liability is shown below.

Note 9 Pension Plan (Continued)

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

Actuarial Assumptions - The total pension liabilities in the June 30, 2014 actuarial valuations were determined using the following actuarial assumptions:

	Miscellaneous	Safety				
Valuation Date	June 30, 2014	June 30, 2014				
Measurement Date	June 30, 2015	June 30, 2015				
Actuarial Cost Method	Entry-Age Normal Cost Method					
Actuarial Assumptions:						
Discount Rate	7.65%	7.65%				
Inflation	2.75%	2.75%				
Payroll Growth	3.00%	3.00%				
Projected Salary Increase	3.30%-14.20% (1)	3.30%-14.20% (1)				
Investment Rate of Return	7.50% (2)	7.50% (2)				
Mortality	Derived using CalPERS' Membership Data for all Fund					

- (1) Depending on age, service and type of employment
- (2) Net of pension plan investment expenses, including inflation

The underlying mortality assumptions and all other actuarial assumptions used in the June 30, 2014 valuation were based on the results of a January 2015 actuarial experience study for the period 1997 to 2011. Further details of the Experience Study can found on the CalPERS website.

Discount Rate – The discount rate used to measure the total pension liability was 7.65% for each Plan. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.65 percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.65 percent will be applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report that can be obtained from the CalPERS website.

CalPERS is scheduled to review all actuarial assumptions as part of its regular Asset Liability Management (ALM) review cycle that is scheduled to be completed in February 2018. Any changes to the discount rate will require Board action and proper stakeholder outreach. For these reasons, CalPERS expects to continue using a discount rate net of administrative expenses for GASB 67 and 68 calculations through at least the 2017-18 fiscal year. CalPERS will continue to check the materiality of the difference in calculation until such time as we have changed our methodology.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

Note 9 Pension Plan (Continued)

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

Asset Class	New Strategic Allocation	Real Return Year 1 - 10(a)	Real Return Years 11+(b)		
Global Equity	51.00%	5.25%	5.71%		
Global Fixed Income	19.00%	0.99%	2.43%		
Inflation Sensitive	6.00%	0.45%	3.36%		
Private Equity	10.00%	6.83%	6.95%		
Real Estate	10.00%	4.50%	5.13%		
Infrastructure and Forestland	2.00%	4.50%	5.09%		
Liquidity	2.00%	-0.55%	-1.05%		
Total	100.00%				

Sensitivity of the Net Pension Liability to Changes in the Discount Rate -The following presents the net pension liability of the Local Government for each Plan, calculated using the discount rate for each Plan, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	Miscellaneous	Safety
1% Decrease	6.65%	6.65%
Net Pension Liability	\$9,726,070	\$12,741,602
Current Discount Rate	7.65%	7.65%
Net Pension Liability	\$5,799,429	\$7,946,896
1% Increase	8.65%	8.65%
Net Pension Liability	\$2,557,556	\$4,015,324

Pension Plan Fiduciary Net Position - Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

Note 10 Post Employment Health Care Benefits

Plan Description

The City provides health insurance benefit plans to eligible retirees and dependents in accordance with various labor agreements and is a single-employer plan. Employees retiring from the City with at least 15 years of continuous full-time service to the City of Dinuba are eligible for retiree health and dental benefits.

Funding Policy

The City's policy is to fund these benefits on a pay-as-you-go basis, and paid approximately \$290,489 for the fiscal year ended June 30, 2016 to the plan. Typically, the general fund and major enterprise funds have liquidated the OPEB obligation.

Annual OPEB Cost and Net OPEB Obligation

The City's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), and amount which was determined as part of the July 1, 2014 actuarial valuation in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The ARC is subject to change with each actuarial valuation date performed no less than every three years.

The City's OPEB unfunded actuarial accrued liability as of July 1, 2014, the date of the most recent actuarial valuation, was a total of \$16,582,381. The OPEB obligation has been adjusted by an annual inflation percentage of 3.25 percent based on the assumptions of the actuarial valuation and a general salary increase of 3.25 percent.

The City has calculated and recorded the net OPEB obligation, representing the difference between the ARC, amortization and contributions, as follows:

Actuarial required contribution (ARC) and annual OPEB cost	\$	1,998,789
Interest on net OPEB obligation		309,345
Adjustment to annual required contribution	1 in the second	(364,495)
Annual OPEB cost (expense)		1,943,639
Less: Employer contribution		(290,489)
Implicit subsidy credit	-	(112,450)
Increase in net OPEB obligation	170:00-0	1,540,700
Net OPEB obligation, beginning of fiscal year		6,874,324
Net OPEB obligations, end of fiscal year	\$	8,415,024

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal year 2016 and the two preceding fiscal years were as follows:

Note 10 Post Employment Health Care Benefits (Continued)

Fiscal Year Ended	Annual OPEB Cost		Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation			
6/30/2014	\$	1,330,538	24.30%	\$	5,432,371		
6/30/2015		1,828,689	21.14%		6,874,324		
6/30/2016		1,943,639	20.73%		8,415,024		

Funded Status and Funding Progress

Actuarial	Actuarial	Actuarial	Unfunded Liability		Annual	UAAL as a
Valuation Date	Accrued Liability	Value of Assets	(Excess Assets)	Funded Ratio	Covered Payroll	% of Payroll
07/1/2014	\$ 16,582,381	\$ -	\$ 16,582,381	0%	\$ 8,140,364	203.7%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about investment return, future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The Schedule of Funding Progress presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for the benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan as understood by the employer and plan members, and include the types of plan benefits provided at the time of the valuation and the historical pattern of sharing benefit costs between employer and plan members to that point. The actuarial methods and assumption used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial assets, consistent with the long-term perspective of the calculations.

The actuarial cost method used for determining the benefit obligations is the Projected Unit Credit Cost Method. The actuarial assumptions include a 4.5 percent investment rate of return, covered payroll increases of 3.25 percent per year, an inflation rate of 3.25 percent per year, and a medical increase trend rate starting at 10 percent per year, and decreasing gradually over a 10 year period to an ultimate rate of 4.50 percent per year. The unfunded actuarial accrued liability (UAAL) is being amortized (on a closed basis) as a level percentage of projected payroll over 26 years.

Note 11 Deferred Compensation

The City has established a Deferred Compensation Plan and Trust as provided in Section 457 of the Internal Revenue Code of 1986, as amended. The City, acting as trustee of this plan, has agreed to perform its services as trustee in accordance with, and, as necessary, limited to comply with, applicable law. All amounts of compensation deferred pursuant to the plan, all property and rights purchased with such amounts, and all income attributable to such amounts, property or rights shall be held in trust for the exclusive benefit of participants and beneficiaries under the plan.

Note 12 Risk Management/Joint Venture

The City's risk management activities are recorded in the internal service fund. The purpose of the fund is to administer the employee life, health, property and liability, and workers' compensation insurance programs of the City.

The City participates with other public entities in a joint venture under a joint powers agreement which establishes the Central San Joaquin Valley Risk Management Authority (CSJVRMA). The relationship between the City and CSJVRMA is such that CSJVRMA is not a component unit of the City for financial reporting purposes.

The City is covered for the first \$1,000,000 of each general liability claim and \$500,000 of each worker's compensation claim through the CSJVRMA. The City has the right to receive dividends or the obligation to pay assessments based on a formula which among other expenses, charges the City's account for liability losses under \$50,000 and workers' compensation losses under \$50,000. The CSJVRMA purchases excess reinsurance from \$1,000,000 to \$29,000,000. The CSJVRMA participates in an excess pool which provides Workers' Compensation coverage from \$500,000 to \$1,500,000 and purchases excess reinsurance above \$5,000,000 to the statutory limit.

The CSJVRMA is a consortium of fifty-five (55) cities in San Joaquin Valley, California. It was established under the provisions of California Government Code Section 6500 et seq. The CSJVRMA is governed by a Board of Directors, which meets three times per year, consisting of one member appointed by each member city. The day-to-day business is handled by a management group employed by the CSJVRM. The financial statements of CSJVRM can be obtained at 1831 K Street, Sacramento, CA 95814.

The financial position and results of operations for the CSJVRMA as of June 30, 2015 (most recent available) are presented below:

Total Assets		80,694,798
Total Liabilities Total Net Position	\$	65,440,947 15,253,851
Total Liabilities and Net Position	_\$_	80,694,798
Revenues for Fiscal Year Expenses for Fiscal Year	\$	32,108,146 32,739,704
Change in Net Position	_\$_	(631,558)

At the termination of the joint powers agreement and after all claims have been settled, any excess or deficit will be divided among the cities in accordance with its governing documents.

The City is self-insured for health insurance for its employees. Each department and division is charged an actuarially determined amount for health insurance expenses based on its employees. All claims are administered by an independent insurance processor; the City is responsible for reimbursing the company for all claims up to \$15,000 per covered individual, with any expenses greater than that being covered by the insurance provider.

Note 12 Risk Management/Joint Venture (Continued)

The claims liability of \$50,000 for health insurance at June 30, 2016 is based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The claims liability was estimated from the average amount of claims paid per lag reports provided by the administrator. Settlements have not exceeded coverages for each of the past three fiscal years.

Changes in health claim liabilities at June 30, 2016 and 2015 were as follows:

	2016	2015
Liability - beginning of fiscal year	\$ 50,000	\$ 50,000
Current year claims and changes in estimates	2,568,544	2,458,755
Claim payments	(2,568,544)	(2,458,755)
Liability - end of fiscal year	\$ 50,000	\$ 50,000

Note 13 Fund Balances

As prescribed by GASB Statement No. 54, governmental funds report fund balance in classifications based primarily on the extent to which the City is bound to honor constraints on the specific Purposes for which amounts in the funds can be spent. As of June 30, 2016, fund balances for governmental funds are made up of the following:

- Nonspendable Fund Balance includes amounts that are (a) not in spendable form, or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example: inventories and prepaid amounts.
- Restricted Fund Balance includes amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may effectively be changed or lifted only with the consent of resource providers.
- Committed Fund Balance includes amounts that can only be used for the specific purposes determined by a formal action of the City's highest level of decision-making authority, the City Council. Commitments may be changed or lifted only by the City Council taking the same formal action that imposed the constraint originally (for example: resolution and ordinance). Ordinance is the highest level of the City Council's approval.
- Assigned Fund Balance comprises amounts intended to be used by the City for specific purposes that are neither restricted nor committed. Intent is expressed by (1) the City Council or (b) a body (for example: a budget or finance committee) or official to which the City Council has delegated through its fund balance policy the authority to assign amounts to be used for specific purposes. Assigned amounts also include all residual amounts in governmental funds (except negative amounts) other than the General Fund, that are not classified as nonspendable, restricted or committed.

Note 13 Fund Balances (Continued)

• Unassigned Fund Balance — is the residual classification for the General Fund and includes all amounts not contained in the other classifications. Unassigned amounts are technically available for any purpose.

In circumstances when an expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is depleted in the order of restricted, committed, assigned, and unassigned.

Note 14 Net Position

GASB Statements No. 34 and 63 add the concept of Net Position, which is measured on the full accrual basis, to the concept of Fund Balance, which is measured on the modified accrual basis.

a. Net Position

Net position is divided into three captions under GASB Statements No. 34 and 63, and are described below:

Net investment in Capital Assets describes the portion of net position which is represented by the current net book value of the City's capital assets, less the outstanding balance of any debt issued to finance these assets.

Restricted describes the portion of net position which is restricted as to use by the terms and conditions of agreements with outside parties, governmental regulations, laws, or other restrictions which the City cannot unilaterally alter. These principally include debt service requirements and special revenue funding restrictions.

Unrestricted describes the portion of net assets which is not restricted as to use.

The government-wide statement of net position reports \$33,955,040 of restricted net position.

Note 14 Net Position (Continued)

GOVERNMENTAL AND BUSINESS-TYPE ACTIVITIES - NET POSITION AS OF JUNE 30, 2016

	GovernmentalActivities	Business-type Activities	Totals

Note 15 Commitments

The City is committed to pay the local Chamber of Commerce 60% of the annual business license fees collected. For the fiscal year ended June 30, 2016 this amount is approximately \$82,273. The budgeted amount for fiscal year June 30, 2016 is \$82,400.

Note 16 Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the government expects such amounts, if any, to be immaterial.

The City is subject to various lawsuits and claims involving public liability and other actions incidental to the ordinary course of City operations. In the aggregate, those claims seek monetary damages in significant amounts. To the extent the outcome of such litigation may be determined to result in financial loss to the City, in the opinion of City management, any potential liability for these actions is adequately provided for in the basic financial statements. The timing of potential payment of such losses cannot presently be determined.

Note 18 Prior Period Adjustments

An adjustment was made in General Construction Capital Projects Fund for an overstatement of prior year deferred revenue of \$69,370.

An adjustment was made in the Disposal Major Enterprise Fund for an understatement of prior year notes receivable of \$141,785.

Note 19 Successor Agency Trust for Assets of the Former Redevelopment Agency (SADRA)

On December 29, 2011, the California Supreme Court upheld AB X1 26 that provides for the dissolution of all redevelopment agencies in the State of California. This action impacted the reporting entity of the City that previously had reported a redevelopment agency within the reporting entity of the City as a blended component unit.

AB X1 26 provides that upon dissolution of a redevelopment agency, either the city or another unit of local government will agree to serve as the "successor agency" to hold the assets until they are distributed to other units of state and local government. The City Council elected to become the Successor Agency for the former redevelopment agency in accordance with AB X1 26.

After enactment of the law, which occurred on June 28, 2011, redevelopment agencies in the State of California cannot enter into new projects, obligations or commitments. Subject to the control of a newly established oversight board, remaining assets can only be used to pay enforceable obligations in existence at the date of dissolution (including the completion of any unfinished projects that were subject to legally enforceable contractual commitments).

In future fiscal years, successor agencies will only be allocated revenue in the amount that is necessary to pay the estimated annual installment payments on enforceable obligations of the former redevelopment agency until all enforceable obligations of the prior redevelopment agency have been paid in full and all assets have been liquidated.

AB X1 26 directs the State Controller of the State of California to review the propriety of any transfers of assets between redevelopment agencies and other public bodies that occurred after January 1, 2011. If the public body that received such transfers is not contractually committed to a third party for the expenditure or encumbrance of those assets, the State Controller is required to order the available assets to be transferred to the public body designated as the successor agency by AB X1 26.

In accordance with the timeline set forth in the Bill (as modified by the California Supreme Court on December 29, 2011) all redevelopment agencies in the State of California were dissolved and ceased to operate as a legal entity as of February 1, 2012. Prior to that date, the final seven months of the activity of the redevelopment agency continued to be reported in the Low-Moderate Income Housing, Tax Allocation and Redevelopment Agency governmental funds of the City. After the date of dissolution, the assets and activities of the dissolved redevelopment agency are reported in a fiduciary fund (private-purpose trust fund) in the financial statements of the City.

Notes Payable

In 2010, the Agency purchased land with the issuance of a note secured by the real property for \$375,000. The note is secured by a deed of trust and the terms of the note call for interest only at 7.00% annually beginning January 1, 2010 with principal payable in installments of \$50,000 or more beginning January 21, 2014 and continuing until January 1, 2019. The balance at June 30, 2016 is \$225,000.

Note 19 Successor Agency Trust for Assets of the Former Redevelopment Agency (SADRA) (Continued)

B. Summary of SADRA's Long-Term Debt (Continued)

2001 RDA Tax Allocation Refunding Bonds. On December 1, 2001, the Redevelopment Agency issued \$13,000,000 of Tax Allocation Refunding Bonds bearing interest of 4.875% and 5.0%, payable semi-annually on March 1 and September 1 commencing March 1, 2002. The bonds mature annually at various amounts through September 1, 2031 and are subject to optional redemption prior to maturity, in whole or in part, on September 1, 2011. The bonds are payable from and secured by incremental tax revenues (Pledged Tax Revenues). The proceeds were used to refund the 1989 Tax Allocation Bonds, which were due September 1, 2019; the 1999A and 1999B Tax Allocation Refunding Notes, which were due on December 1, 2004, the 2000 Tax Allocation Refunding Notes, and the 1999A and 1999B Tax Allocation Refunding Notes, which were due on December 1, 2004 and to finance a portion of the costs of the Agency. Bonds outstanding at June 30, 2016, were \$0 as these were refunded by the 2014 Tax Allocation Refunding Bonds.

2003 Tax Allocation Bonds. On October 23, 2003, the Agency issued \$7,500,000 of Tax Allocation Bonds bearing interest between 2% and 5% and payable semi-annually on March 1 and September 1. The Bonds mature annually at various amounts through September 1, 2033. The bonds are payable from and secured by incremented tax revenues (Pledged Tax Revenues). The Bond proceeds are to be used to finance certain projects with the Agency's project area including 20% benefiting low and moderate income housing. The principal account of 2003 tax allocation bonds outstanding at June 30, 2016 was \$0 as these were refunded by the 2014 Tax Allocation Refunding Bonds.

2005 Tax Allocation Refunding Bonds. On December 1, 2005, the Dinuba Redevelopment Agency issued \$5,670,000 Tax Allocation Refunding Bonds bearing interest of 3.0% and 5.0%, payable semi-annually on March 1 and September 1 commencing March 1, 2006. The bonds mature annually at various amounts through September 1, 2034 and are subject to optional redemption prior to maturity, in whole or in part, on September 1, 2016. The bonds are payable from and secured by incremental tax revenues (Pledged Tax Revenues). The bond proceeds were used to refund the 1997B Tax Allocation Refunding Bonds, which were due on September 1, 2027, and the 1997C Tax Allocation Bonds, which were due on September 1, 2027, and to finance a portion of the costs of the Agency. These bonds have been refunded by 2015 Tax Allocation Refunding Bonds.

The Agency advance refunded the 1997B and 1999C Tax Allocation Refunding Bonds to reduce its total debt service over the next thirty years by \$465,034 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$399,434.

Note 19 Successor Agency Trust for Assets of the Former Redevelopment Agency (SADRA) (Continued)

B. Summary of SADRA's Long-Term Debt (Continued)

2006 Tax Allocation Refunding Bonds. On October 5, 2006, the Dinuba Redevelopment Agency issued \$17,270,000 of Tax Allocation Refunding Bonds bearing interest of 3.4% to 5.0%, payable semi-annually on March 1 and September 1 commencing March 1, 2007. The bonds mature annually at various amounts through September 1, 2036 and are subject to operational redemption prior to maturity, in whole or in part, on September 1, 2016. The bonds are payable from and secured by incremental tax revenues (Pledged Tax Revenues). The bond proceeds were used to refund the 1997A Tax Allocation Refunding Bonds which were due on September 1, 2027 and to finance a portion of the costs of the Redevelopment Project. Bonds outstanding at June 30, 2016, were \$3,000,000.

The Agency advance refunded the 1997A Tax Allocation Refunding Bonds to reduce its total debt service over the next twenty-one years by \$231,787 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$127,358.

2011A Tax Allocation Refunding Bonds. On June 21, 2011, the Dinuba Redevelopment Agency issued \$10,740,000 Tax Allocation Refunding Bonds bearing interest of 5.75% to 6.125% payable semi-annually on March 1 and September 1 commencing March 1, 2012. The bonds mature annually at various amounts through September 1, 2039. The bonds are payable from and secured by incremental tax revenues. Bonds outstanding as of June 30, 2016 were \$10,365,000.

The Bonds are being issued to refinance the Agency's previously issued \$7,000,000, 2006 Tax Allocation Notes and a portion of the Agency's \$7,500,000 2007 Subordinate Tax Allocation Notes. As a result, the 2006 and partial 2007 Tax Allocation Notes are considered to be defeased and the liability for those bonds have been removed from the long-term liabilities of the Governmental Activities Debt.

The aggregate debt service payments of the new debts are \$22,997,995 (2011A and 2011B) more than the old debt. The issuance of the new debt and refunding of the old debt resulted in an economic gain (the differences between the present value of the old debt and new debt payments) of approximate \$503,000.

2011B Tax Allocation Refunding Bonds. On June 21, 2011, the Dinuba Redevelopment Agency issued \$4,400,000 Subordinate Tax Allocation Refunding Bonds bearing interest of 5.00% to 7.75% payable semi-annually on March 1 and September 1 commencing September 1, 2012. The bonds mature annually at various amounts through September 1, 2041. The bonds are payable from and secured by incremental tax revenues (Pledged Tax Revenues). Bonds outstanding as of June 30, 2016 were \$4,325,000.

The Bonds are being issued to refinance a portion of the Agency's previously \$7,500,000 Merged City of Dinuba Redevelopment Project and Dinuba Redevelopment Project No. 2. Subordinate Tax Allocation Notes issued in 2007. As a result, the balance of the 2007 Tax Allocation Notes are considered to be defeased and the liability for the bonds has been removed from the long-term liabilities of the Governmental Activities debt (see previous note for 2011A Tax Allocation Bonds).

Note 19 Successor Agency Trust for Assets of the Former Redevelopment Agency (SADRA) (Continued)

B. Summary of SADRA's Long-Term Debt (Continued)

2012 Subordinate Tax Allocation Refunding Bonds. On December 6, 2012, SADRA issued \$1,700,000 Subordinate Tax Allocation Refunding Bonds bearing interest of 2.0% to 4.25% payable semi-annually on March 1 and September 1 commencing March 1, 2014. The bonds mature annually at various amounts through September 2039. The bonds are payable from and secured by incremental tax revenues. Bonds outstanding as of June 30, 2016 were \$1,560,000.

The Bonds are being issued to refinance the Agency's previously issued \$1,370,000, 2009 Tax Allocation Notes. As a result, the 2009 Tax Allocation Notes are considered to be defeased and the liability for those bonds have been removed from the long-term liabilities.

The aggregate debt service payments of the new debt is \$1,406,600 more than the old debt.

After using funds remaining from the 2001 and 2003 issues, recognizing an original issue premium, paying costs of issuance, and paying an escrow agent for the refunding, the SADRA recognized a deferred loss on refunding in the amount of \$495,141.

2014 Tax Allocation Refunding Bonds. On May 14, 2014, the Successor Agency to the Dinuba Redevelopment Agency issued \$14,650,000 Tax Allocation Refunding Bonds bearing interest of 3% payable semi-annually on March 1 and September 1 commencing September 1, 2014. The bonds mature annually at various amounts through September 1, 2033. The bonds are payable from and secured by incremental tax revenues. Bonds outstanding as of June 30, 2016 were \$13,685,000.

The Bonds are being issued to refinance the outstanding amount (\$9,630,000) of the Agency's previously issued 2001 Tax Allocation Bonds and outstanding amount (\$6,465,000) of the Agency's 2003 Tax Allocation Bonds. As a result, the 2001 and 2003 Tax Allocation Bonds are considered to be defeased and the liability for those bonds have been removed from the long-term liabilities of the Private Purpose Trust Fund.

2015 Tax Allocation Refunding Bonds. On October 1, 2015, the Successor Agency to the Dinuba Redevelopment Agency issued \$15,055,000 Tax Allocation Refunding Bonds bearing interest of 3% payable semi-annually on March 1 and September 1 commencing March 1, 2016. The bonds mature annually at various amounts through September 1, 2036. The bonds are payable from and secured by incremental tax revenues. Bonds outstanding as of June 30, 2016 were \$15,055,000.

The Bonds are being issued to refinance the outstanding amount (\$4,440,000) of the Agency's previously issued 2005 Tax Allocation Refunding Bonds and outstanding amount (\$11,375,000) of the Agency's 2006 Tax Allocation Refunding Bonds. As a result, the 2005 Tax Allocation Refunding Bonds are considered to be defeased and the liability for the bonds have been removed from the long-term liabilities of the Private Purpose Trust Fund.

As a result of this refunding, the SADRA recognized a deferred loss on refunding in the amount of \$828,923.

Plan fiduciary net position as a percentage of total pension liability		78.78%		72.48%		78.40%		70.72%	

Notes to Schedule

Change in Benefit Terms: The figures above do not include any liability impact that may have resulted from plan changes which occurred after June 30, 2013 as they have minimal cost impact. This applies for voluntary benefit changes as well as any offers of Two Years Additional Service Credit (a.k.a Golden Handshakes).

Change in Assumptions: Discount rate has changed to 7.65%.

^{*}Fiscal year 2015 was the 1st year of implementation, therefore only two years are shown.

Notes to Schedule

Valuation Date:

June 30, 2014

Methods and assumptions used to determine contribution rates:

Actuarial Cost Method Amortization Method Asset Valuation Method Inflation Entry-Age Normal Cost Method Level Percent of Payroll Market Value 2.75%

Salary Increases

3.30% to 14.20% depending on age, service, and type of employment

Investment Rate of Return

7.50%, net of pension plan investment and administrative Expenses; includes Inflation Derived using CalPERS' Membership Data

Mortality Rate Table (1)

for all Funds

⁽¹⁾ The mortality table was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. For more details on this table, please refer to the 2015 experience study report.

^{*}Fiscal year 2015 was the 1st year of implementation, therefore only two years are shown.

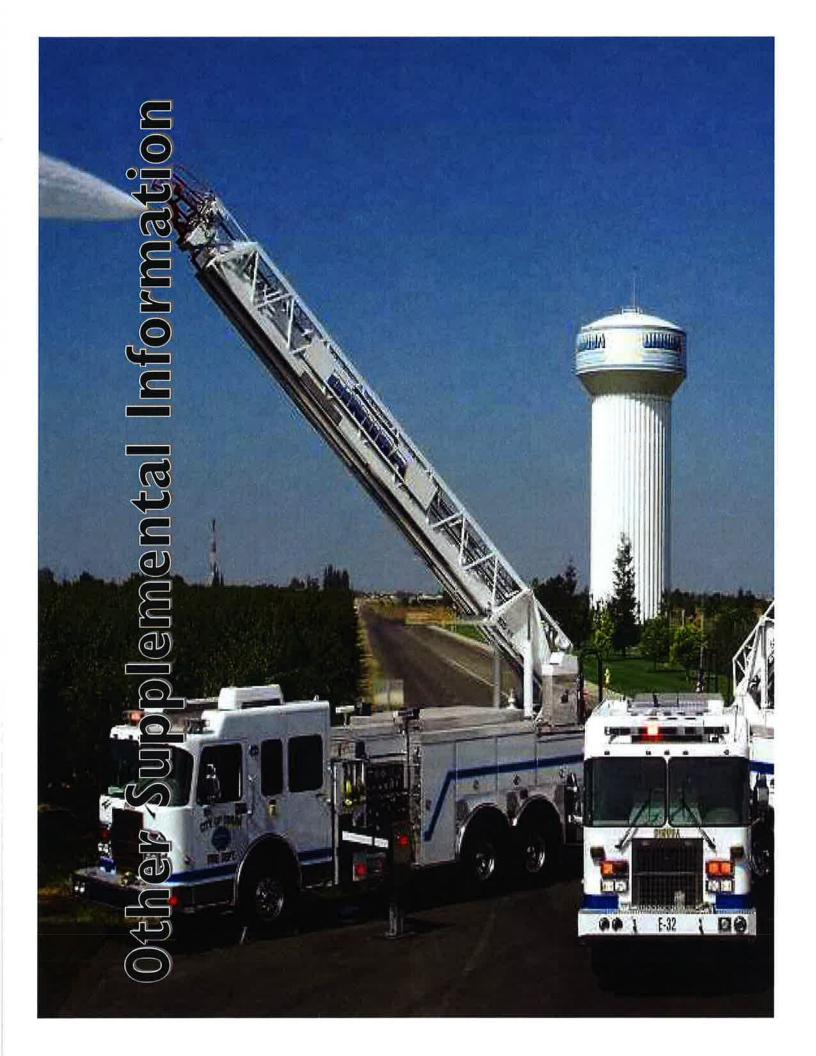

CITY OF DINUBA NOTE TO REQUIRED SUPPLEMENTARY INFORMATION FISCAL YEAR ENDED JUNE 30, 2016

Note 1 Budgets and Budgetary Data

The annual budget adopted by the City Council provides for the general operation of the City. It includes proposed expenditures and the means of financing them.

Budgets for the General and Special Revenue Funds are adopted on a basis substantially consistent with the accounting principles generally accepted in the United States of America (US GAAP). Accordingly, actual revenues and expenditures can be compared with the related budgeted amounts without any significant reconciling items.

Additional information concerning the General Budget policies is explained more thoroughly in the Notes to the Basic Financial Statements.

City of Dinuba

Nonmajor Governmental Funds

Special Revenue Funds

Special revenue funds are used to account for specific revenue (other than those for major capital projects) that are restricted legally to expenditures for particular purposes.

GAS TAX FUND - This fund accounts for street projects paid for out of the City's share of the gas tax monies received from the state.

PARKS RESERVE FUND – Monies received from developers for the purpose of acquiring additional parklands are accounted for in this fund.

TRANSPORTATION FUND – This fund accounts for monies received under the Transportation Development Act for street and road projects, and for planning purposes.

SYSTEM DEVELOPMENT CHARGES FUND – This fund accounts for developer deposits for expanding existing water, sewer, and/or transportation systems, and to provide new systems necessary in new real estate developments.

COMMUNITY ENHANCEMENT GRANTS FUND – This fund accounts for various State and Federal grants awards to the City.

CURB AND GUTTER FUND – This fund is for the purpose of accounting for deposits made for future curb and gutter improvements in new areas.

ASSESSMENT DISTRICTS FUND – This fund accounts for the lighting and maintenance district costs of various medians and landscape areas in the City. Funding is provided by assessments charged to property owners within the district.

FIRE IMPACT FEES FUND – This fund accounts for fees collected from developers and saved for future capital outlays for fire equipment.

HOUSING AUTHORITY FUND – This fund is used for account for activities of the former low and moderate income housing fund of the former Dinuba Redevelopment Agency.

City of Dinuba

Nonmajor Governmental Funds

Capital Projects Funds

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

DRAINAGE DISTRICTS FUND - This fund accounts for all the capital projects which have been, or will be, established in the City's drainage districts.

VOCATIONAL CENTER FUND – This fund accounts for the expenditures associated with the operation of the Vocational Center.

MTBE FUND – This fund accounts for the revenue received as part of the MTBE Settlement Litigation. Revenue is received in this fund and allocated-out to the appropriate funds and capital projects that have expenditures associated with MTBE.

PUBLIC WORKS MANAGEMENT FUND – This fund accounts for the management costs of the Public Works Services Department. The source of funding is a charge against the Water, Sewer, Disposal, and Transportation funds as well as reimbursement received from Tulare County for the Road 80 Expansion Project.

Debt Service Fund

Debt service funds are used to account for the accumulation of resources for, and the retirement of, long-term debt principal and interest.

GENERAL DEBT SERVICE FUND – This fund was set up to account for servicing general long-term debt incurred in Governmental Funds through equipment lease-purchases and/or loans, along with its commitment to fund the long-term portion of employee vacation, sick leave, and compensatory time benefits.

City of Dinuba

Nonmajor Enterprise Funds

Enterprise funds are used to account for the financing of goods or services provided to customers.

TRANSIT ENTERPRISE FUND – This fund accounts for the operation of the City's transit system, which is accomplished by a private contractor. The principal source of funding for this activity is SB325 money.

COMPRESSED NATURAL GAS FUND - This fund accounts for the sale of compressed natural gas and related costs to outside entities.

ENGINEERING FUND - This fund accounts for the receipt of fees to cover the costs of building and engineering.

City of Dinuba

Internal Service Funds

Enterprise funds are used to account for the financing of goods or services provided to departments or agencies of the government and to other government units, on a cost reimbursement basis.

INSURANCE FUND – This fund was set up to account for the cost of general liability, property damage, and employee related health insurance costs. The City is involved in a self-insurance program through a joint powers authority with other local municipalities. The source of funding for the City's program is a charge to all operating departments through a budgeting of the estimated costs to be allocated.

BILLING AND COLLECTION SERVICES FUND – This fund was set up to account for the costs and revenue for billing and collections of General, Utility, and Ambulance funds. The source of funding is a charge against the aforementioned funds.

PROPERTY AND EQUIPMENT SERVICE FUND – This fund was set up to account for the costs of maintenance and repairs for both buildings and equipment throughout the City. The source of this funding is a charge against the departments for services rendered.

City of Dinuba

Agency Funds

Agency funds are used to account for assets held by the City as an agent for individuals, private organizations, other agencies, and/or other funds.

CASH DEPOSITS FUND – This fund was set up to be a revolving cash deposits fund. Monies are held here (cleaning deposits, construction bonds, etc.) until they are expended or a refund is authorized by the City when the depositor has met all the necessary requirements.

RETIREE'S INSURANCE FUND – To account for funds set aside and due to retirees for future health insurance benefits.

DPOA TRUST FUND – This fund accumulates donations from several non-profit entities for the repair and maintenance of the Dinuba Police Officers' Association practice pistol-shooting range.

SPECIAL COMMUNITY EVENTS FUND – Donations to community services (recreation) for special recreation equipment or services are accounted for in this fund.

POST TRAINING REVOLVING FUND – This fund is a revolving fund set up for specific types of police officer training.

ABANDONED VEHICLES FUND – For the purpose of beautification of the City, donations to this fund are used for the removal of abandoned vehicles from private properties in the City.

PRO-YOUTH FUND – These funds are either donated by local citizens or service organizations or they are earned by the youth themselves and used for youth recreation activities and services.

POLICE ACTIVITIES – Donations to the Police Activities Fund are used to pay for uniforms and equipment for citizen volunteers of the police department.

City of Dinuba

Statistical Section

This part of the City's comprehensive annual financial report presents detailed information in a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the factors affecting the City's ability to generate its property and sales taxes.

Debt Capacity

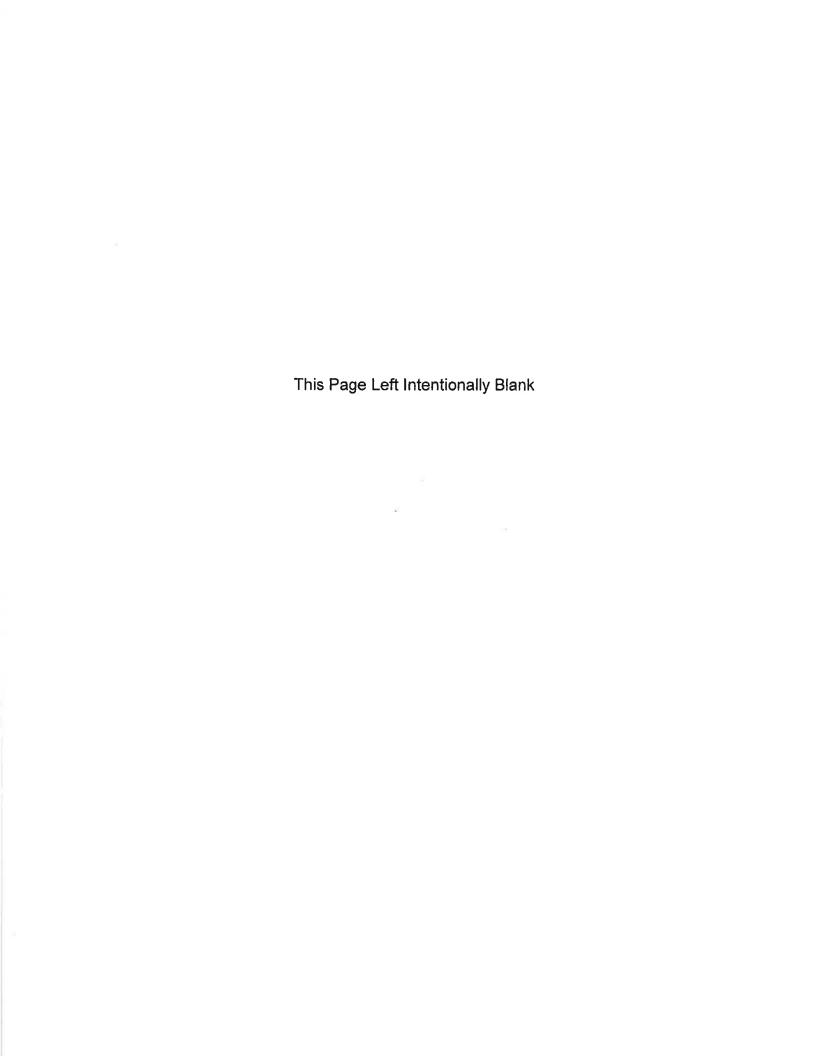

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place and to help make comparisons over time and with other governments.

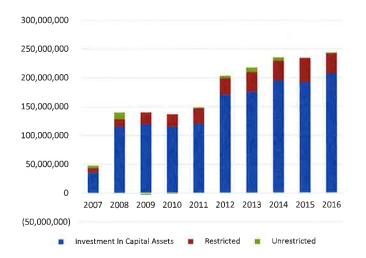

Operating Information

These schedules contain information about the City's operations and resources to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs.

Total Direct Rate ¹	1.116	1.111	1,111	1.225	1.128

NOTE: In 1978, California voters passed Proposition 13, which sets the property tax rate at a 1.000% fixed amount. This 1.000% is shared by all taxing agencies for which the subject property resides within. In addition to the fixed amount, property owners are charged taxes as a percentage of assessed property values for the payment of bonded debt service on the voter-approved School District and Community College bonds.

1 The City's total direct tax rate varies by tax rate area. The rate provided comes from tax rate area 001-005 and is representative of other tax rate areas within the City.
